The Journal of THORACIC AND CARDIOVASCULAR SURGERY

Official organ, The American Association for Thoracic Surgery and The Samson Thoracic Surgical Society

Editor BRIAN BLADES, *Washington, D. C.*

Associate editors THOMAS H. BURFORD, *St. Louis*
PAUL ADKINS, *Washington, D. C.*

Advisory editorial board WILLIAM E. ADAMS, *Chicago*
RALPH D. ALLEY, *Albany*
EDWARD J. BEATTIE, JR., *New York*
WILFRED G. BIGELOW, *Toronto*
O. THERON CLAGETT, *Rochester, Minn.*
ANTHONY R. CURRERI, *Madison, Wis.*
DONALD B. EFFLER, *Cleveland*
ROBERT E. GROSS, *Boston*
JOHN C. JONES, *Los Angeles*
JOHN W. KIRKLIN, *Birmingham*
HIRAM T. LANGSTON, *Chicago*
HERBERT C. MAIER, *New York*
JAMES R. MALM, *New York*
DWIGHT C. McGOON, *Rochester, Minn.*
DONALD L. PAULSON, *Dallas*
DAVID C. SABISTON, JR., *Durham, N. C.*
PAUL C. SAMSON, *Oakland*

Advisory editorial board representing the Society of Thoracic and Cardiovascular Surgeons of Great Britain and Ireland LORD RUSSELL C. BROCK, *London, England*

Editorial consultant LEO ELOESSER, *San Francisco*

EVARTS A. GRAHAM, *Editor, 1931-1957*
EMILE HOLMAN, *Editor, 1957-1962*

Subject index*

A

Achalasia, association of carcinoma of esophagus with (Hankins and McLaughlin), 355

Acid-base imbalance on myocardial pacing thresholds, effects of (Hughes et al.), 743

Acid phosphatase activity and lysosomal activation in dog heart after one hour of cardiopulmonary bypass, effect of different methods of protecting myocardium on (McCallister et al.), 644

Activation, lysosomal, and acid phosphatase activity in dog heart after one hour of cardiopulmonary bypass, effect of different methods of protecting myocardium on (McCallister et al.), 644

Acute coronary insufficiency with three years' follow-up, surgical management for (Hammond and Poirier), 625

Adams, William E. (1902-1973): adherence to sound principles, 160 (Obit.)

Adenoid cystic carcinoma of esophagus, primary: report of case and review of literature (Pourzand et al.), 785

Allografts and autografts without immunosuppression, staining methods and findings in dogs with, I. Alveolar lavage cytology in transplanted lungs (Achterrath et al.), 510

heart, rat, during rejection, accumulation of ^{131}I hippurate in (Moore et al.), 402

Alveolar lavage cytology in transplanted lungs. I. Staining methods and findings in dogs with autografts and allografts without immunosuppression (Achterrath et al.), 510

American Association for Thoracic Surgery: Graham Traveling Fellowship, 974

Program of 1975 Annual Meeting, 492

Board of Thoracic Surgery: Announcement of 1976 examination, 834, 976

Ammonium sulfate, 10 per cent, treatment of intercostal neuralgia with (Miller et al.), 476

Anastomosis, ascending aorta–right pulmonary artery, in children with complex cardiac malformations: long-term results in 30 cases (Ortega et al.), 927

Anastomosis—Cont'd

diamond: technique for creating right-angle side-to-side vascular anastomosis (Grow and Brantigan), 188

internal mammary artery–coronary vein, direct selective myocardial revascularization by (Park et al.), 63

saphenous vein–coronary artery, use of Fogarty biliary catheter to create bloodless field for (Grow and Brantigan), 105

Aneurysm(s), calcified, multiple, of intercostal arteries in adults, management of coarctation with (Sethi et al.), 909

congenital, of left atrium with associated defects in fibrous skeleton of heart (Amato et al.), 639

saccular, of ascending aorta caused by granulomatous aortitis in child (Zumbro et al.), 397

sinus of Valsalva, unruptured, isolated: serendipitous detection and correction (Mayer et al.), 429

Aneurysmectomy, left ventricular, survival and function after (Cooperman et al.), 321

Angina, preinfarction, rationale for surgery in (Matloff et al.), 73

Angiography, delayed coronary artery dissection after: case description with successful operative treatment (Harrison et al.), 880

Angiologic and bronchographic observations in experimental autotransplantation of lung or lung lobe (Rabinovich), 806

Anomalous high insertion of inferior vena cava, common atrium associated with (Takanashi et al.), 912

left pulmonary artery causing tracheobronchial obstruction, surgical management of: pulmonary artery sling (Koopot et al.), 239

right ventricular muscle bundle: repair through right atrium (Wallsh et al.), 830

systemic venous return, partial: report of surgical treatment in two cases (Crenshaw et al.), 433

Anomaly(ies), artery, coronary, in patients with tetralogy of Fallot (Meyer et al.), 373

*January, pp. 1-168; February, pp. 169-332; March, pp. 333-498; April, pp. 499-668; May, pp. 669-840; June, pp. 841-1008.

Anomaly(ies)—Cont'd
associated, in infants, closed aortic valvotomy and simultaneous correction of (Trinkle et al.), 758
Anoxic arrest, normothermic, and ventricular fibrillation on coronary blood flow distribution of pig, effect of (Engelman et al.), 858
Aorta, ascending, caused by granulomatous aortitis in child, saccular aneurysm of (Zumbro et al.), 397
for long-term membrane oxygenator support, cannulation of (Cooper et al.), 905
coarctation of, during pregnancy, management of (Barash et al.), 781
–coronary artery saphenous vein bypass grafts: isolated and combined with other procedures (Assad-Morell et al.), 841
saphenous vein bypass graft operations, serum enzyme data in diagnosis of myocardial infarction during or early after (Assad-Morell et al.), 851
–right pulmonary artery anastomosis, ascending, in children with complex cardiac malformations: long-term results in 30 cases (Ortega et al.), 927
Aortic arch, blunt injuries to branches of (Castagna and Nelson), 521
interrupted, and ventricular septal defect: direct repair through median sternotomy incision in 13-day-old infant (Trusler and Izukawa), 126
interruption in neonate, palliative operation for all types of (Jones et al.), 579
regurgitation determined by cardiac catheterization (Sasse), 329 (Letter)
valve, homograft, surgical repair using: tetralogy of Fallot with atresia of left pulmonary artery (Goldsmith et al.), 458
prosthetic, double: case report (Liddicoat et al.), 763
valvotomy, closed, and simultaneous correction of associated anomalies in infants (Trinkle et al.), 758
Aortitis, granulomatous, in child, saccular aneurysm of ascending aorta caused by (Zumbro et al.), 397
Aorto-pulmonary shunt in premature infant: technical considerations (Roe), 437
Arch, aortic, blunt injuries to branches of (Castagna and Nelson), 521
interruption, aortic, in neonate, palliative operation for all types of (Jones et al.), 579
Arrest, anoxic, normothermic, and ventricular fibrillation on coronary blood flow distribution of pig, effect of (Engelman et al.), 858
Arrest—Cont'd
ischemic, by intracoronary tetrodotoxin administration, mechanism of myocardial protection from (Tyers et al.), 190
Arrhythmias, atrial, in man, blood velocity at mitral valve during (Benchimol et al.), 230
following ligation of circumflex artery, control of (Armiger and Elswijk), 891
Arterial pressure, viscosity, and resistance during cardiopulmonary bypass, changes in (Gordon et al.), 552
Arteriosus, ductus, complicated, through transpulmonary route using hypothermia, closure of: surgical considerations in one case (Gonçalves-Estella et al.), 698
truncus, current status of surgical treatment of (Poirier et al.), 169
Artery(ies) anastomosis, ascending aorta–right pulmonary, in children with complex cardiac malformations: long-term results in 30 cases (Ortega et al.), 927
saphenous vein–coronary, use of Fogarty biliary catheter to create bloodless field for (Grow and Brantigan), 105
anomalies, coronary, in patients with tetralogy of Fallot (Meyer et al.), 373
bypass, left atrial–femoral, method of closed-chest cannulation of left atrium for (Glassman et al.), 283
circumflex, control of arrhythmias following ligation of (Armiger et al.), 891
coronary, canine, hemodynamic characteristics of critical stenosis in (Elzinga and Skinner), 217
effects of cardiac lymphatic obstruction on (Bradham et al.), 876
left, common, postperfusion stenosis of (Hazan et al.), 703
main, stenotic, and impaired left ventricle, revascularization of (Urschel and Razzuk), 369
vein anastomosis, internal mammary, direct selective myocardial revascularization by (Park et al.), 63
dissection, coronary, delayed, after angiography: case description with successful operative treatment (Harrison et al.), 880
femoral and carotid, distribution of oxygenated blood in experimental perfusion via (Esato et al.), 467
fistula, coronary, experimental (Reitz et al.), 278
innominate, extrathoracic bypass for stenosis of (Sethi et al.), 212
intercostal, in adults, management of coarctation with multiple calcified aneurysms of (Sethi et al.), 909

Artery(ies), intercostal—Cont'd
in patient with neurofibromatosis and scoliosis, spontaneous rupture of (Butchart et al.), 919
pulmonary, left, anomalous, causing tracheobronchial obstruction, surgical management of: pulmonary artery sling (Koopot et al.), 239
tetralogy of Fallot with atresia of: surgical repair using homograft aortic valve (Goldsmith et al.), 458
saphenous vein bypass grafts, aorta–coronary: isolated and combined with other procedures (Assad-Morell et al.), 841
sling, pulmonary (Sade et al.), 333
surgery, coronary, direct, in women, results of (Bolooki et al.), 271

Arthritis, rheumatoid, thoracic surgical problems associated with (Yarbrough et al.), 347

Artificial heart, total, one 25 day survivor with (Honda et al.), 92

Atresia of left pulmonary artery, tetralogy of Fallot with: surgical repair using homograft aortic valve (Goldsmith et al.), 458
pulmonary, with ventricular septal defect, surgical anatomy of: pseudotruncus (Bharati et al.), 713
tricuspid, with Christmas disease (hemophilia B): report of case (Lawson et al.), 585

Atrial arrhythmias in man, blood velocity at mitral valve during (Benchimol et al.), 230
myxomas, bilateral: preoperative diagnosis and successful removal (Zajtchuk et al.), 291
pacing, transvenous, with new electrode (Lajos and Wanka), 575
septectomy, closed, with new septectome, first clinical results of: palliative treatment of complete transposition of great vessels (Rastan), 407

Atrioventricular block, first-degree: cause of false malfunction of mitral disc-valve prosthesis. Case report (Stefadouros et al.), 776

Atrium, common, associated with anomalous high insertion of inferior vena cava (Takanashi et al.), 912
left, with associated defects in fibrous skeleton of heart, congenital aneurysm of (Amato et al.), 639
for left atrial–femoral artery bypass, method of closed-chest cannulation of (Glassman et al.), 283

Atrium—Cont'd
right, including atrial septum, immediate and long-term effects of transverse circular incision of: internodal conduction (Mohri et al.), 615
repair through: anomalous right ventricular muscle bundle (Wallsh et al.), 830

Autografts and allografts without immunosuppression, staining methods and findings in dogs with, I. Alveolar lavage cytology in transplanted lungs (Achterrath et al.), 510

Autotransplantation, experimental, of lung or lung lobe, bronchographic and angiologic observations in (Rabinovich), 806

Avulsion, traumatic, of trachea associated with cricoid fracture (Ashbaugh and Gordon), 800

Awake dog, neurogenic influences on coronary vascular response to ischemia in (Bache et al.), 421

B

Balloon, intrapulmonary, for temporary relief of pulmonary hypertension (Barbero-Marcial et al.), 942

Benign pleural mesothelioma, hypoglycemic coma associated with (Nelson et al.), 306

Bilateral atrial myxomas: preoperative diagnosis and successful removal (Zajtchuk et al.), 291

Bioenergetic metabolism, myocardial, in swine after periods of ischemic ventricular fibrillation, restoration of (Skinner et al.), 729

Biological and synthetic substitutes, comparison of: segmental venous replacement (Smith et al.), 589

Biopsy, open versus needle, of lung: How valuable to patient? (Lincoln et al.), 507

Block, atrioventricular, first-degree: cause of false malfunction of mitral disc-valve prosthesis. Case report (Stefadouros et al.), 776

Blood flow, collateral, coronary, in acute myocardial infarction (Cox et al.), 117
distribution, coronary, of pig, effect of normothermic anoxic arrest and ventricular fibrillation on (Engelman et al.), 858
myocardial, regional, and myocardial pressure, surgical aspects of (Baird et al.), 17
oxygenated, in experimental perfusion via femoral and carotid arteries, distribution of (Esato et al.), 467

Blood—Cont'd
pericardial, as source of hemolysis, importance of: comparison of membrane and bubble oxygenation as used in cardiopulmonary bypass in patients (Siderys et al.), 708
velocity at mitral valve during atrial arrhythmias in man (Benchimol et al.), 230
Blunt injuries to branches of aortic arch (Castagna and Nelson), 521
Bronchial culture technique using modified nasotracheal suction catheter with sterile, inner telescoping cannula: selective sputum cultures (Cattaneo et al.), 152
Bronchogenic carcinoma, metastatic, radioisotope scans in evaluation of (Gutierrez et al.), 934
Bronchographic and angiologic observations in experimental autotransplantation of lung or lung lobe (Rabinovich), 806
Bubble oxygenator, variable-column: new system for bubble oxygenation (Gomes et al.), 606
Bullet(s), embolization of (Keshishian), 329 (Letter)
wandering: successful removal and simple technique to prevent migration (Petsas et al.), 954
Bullosa, epidermolysis, radical surgical treatment of esophageal stenosis due to (Králík and Rapant), 790
Bundle, muscle, right ventricular, anomalous: repair through right atrium (Wallsh et al.), 830
Bypass, cardiopulmonary, changes in arterial pressure, viscosity, and resistance during (Gordon et al.), 552
clinical method for detecting subendocardial ischemia after (Philips et al.), 30
effect of different methods of protecting myocardium on lysosomal activation and acid phosphatase activity in dog heart after one hour of (McCallister et al.), 644
kinetic studies on dogs on: blood platelets and extracorporeal circulation (de Leval et al.), 144
in patients, comparison of membrane and bubble oxygenation as used in: importance of pericardial blood as source of hemolysis (Siderys et al.), 708
surgical treatment of chronic constrictive pericarditis using (Copeland et al.), 236
use of methylprednisolone during: review of 427 cases (Dietzman et al.), 870
Bypass—Cont'd
colon, left, and free fascia-muscle graft, successful surgical treatment with: malignant tracheoesophageal fistula secondary to Hodgkin's disease (Lambert), 820
extrathoracic, for stenosis of innominate artery (Sethi et al.), 212
graft(s) operations, saphenous vein, aorta-coronary, serum enzyme data in diagnosis of myocardial infarction during or early after (Assad-Morell et al.), 851
saphenous vein, aorta–coronary artery: isolated and combined with other procedures (Assad-Morell et al.), 841
left atrial–femoral artery, method of closed-chest cannulation of left atrium for (Glassman et al.), 283

C

Cannulation of ascending aorta for long-term membrane oxygenator support (Cooper et al.), 905
closed-chest, of left atrium for left atrial–femoral artery bypass, method of (Glassman et al.), 283
Carbon dioxide on collateral pathways of pulmonary ventilation, action of (Sealy and Seaber), 533
Carcinoma, bronchogenic, metastatic, radioisotope scans in evaluation of (Gutierrez et al.), 934
of esophagus with achalasia, association of (Hankins and McLaughlin), 355
cystic, adenoid, primary: report of case and review of literature (Pourzand et al.), 785
Cardiac catheterization, aortic regurgitation determined by (Sasse), 329 (Letter)
lymphatic(s), effects of obstruction of (Parker et al.), 390
obstruction on coronary arteries, effects of (Bradham et al.), 876
malformations, complex, ascending aorta–right pulmonary artery anastomosis in children with: long-term results in 30 cases (Ortega et al.), 927
pacemaker electrodes, permanent, advantages of transthoracic placement of (Tyers et al.), 8
pacer, radioisotope-powered, new (Purdy et al.), 82
pacing, transvenous, permanent, complications of (Grögler et al.), 895
valves, dura mater, homologous: study of 533 surgical cases (Puig et al.), 722

Cardiopulmonary bypass, changes in arterial pressure, viscosity, and resistance during (Gordon et al.), 552
clinical method for detecting subendocardial ischemia after (Philips et al.), 30
effect of different methods of protecting myocardium on lysosomal activation and acid phosphatase activity in dog heart after one hour of (McCallister et al.), 644
kinetic studies on dogs on: blood platelets and extracorporeal circulation (de Leval et al.), 144
in patients, comparison of membrane and bubble oxygenation as used in: importance of pericardial blood as source of hemolysis (Siderys et al.), 708
surgical treatment of chronic constrictive pericarditis using (Copeland et al.), 236
use of methylprednisolone during: review of 427 cases (Dietzman et al.), 870
Carotid and femoral arteries, distribution of oxygenated blood in experimental perfusion via (Esato et al.), 467
Catheter, biliary, Fogarty, to create bloodless field for saphenous vein–coronary artery anastomosis, use of (Grow and Brantigan), 105
suction, nasotracheal, modified, with sterile, inner telescoping cannula, bronchial culture technique using: selective sputum cultures (Cattaneo et al.), 152
Catheterization, cardiac, aortic regurgitation determined by (Sasse), 329 (Letter)
selective, with serial cultures, localization of endovascular infection by (Bach et al.), 377
Cavernous hemangioma of heart: case report and review of literature (Tabry et al.), 415
Cell myoblastoma, granular: another unusual esophageal lesion (Calhoun et al.), 472
Child, saccular aneurysm of ascending aorta caused by granulomatous aortitis in (Zumbro et al.), 397
Children with complex cardiac malformations, ascending aorta–right pulmonary artery anastomosis in: long-term results in 30 cases (Ortega et al.), 927
cyanotic and acyanotic, before and after open intracardiac operations with Bentley Temptrol oxygenator, fibrinolysis in (Pike et al.), 922
Christmas disease (hemophilia B), tricuspid atresia with: report of case (Lawson et al.), 585
Chylothorax, postoperative: six cases in 2,500 operations, with survey of world literature (Cevese et al.), 966
Circulation, extracorporeal, and blood platelets: kinetic studies on dogs on cardiopulmonary bypass (de Leval et al.), 144
heparin therapy during. I. Problems inherent in existing heparin protocols (Bull et al.), 674
II. Use of dose-response curve to individualize heparin and protamine dosage (Bull et al.), 685
prolonged, nature of deposits in tubular membrane oxygenator after: scanning electron microscope study (Guidoin et al.), 479
Circumflex artery, control of arrhythmias following ligation of (Armiger et al.), 891
Cleft sternum, total, surgical repair of (Verska), 301
Closed-chest cannulation of left atrium for left atrial–femoral artery bypass, method of (Glassman et al.), 283
Closure of complicated ductus arteriosus through transpulmonary route using hypothermia: surgical considerations in one case (Gonçalves-Estella et al.), 698
Cloth-covered prosthetic valves, complications of: results with new mitral prosthesis (Wukasch et al.), 107
Clots, do prosthetic heart valves really make (Effler), 664 (Edit.)
Coarctation of aorta during pregnancy, management of (Barash et al.), 781
with multiple calcified aneurysms of intercostal arteries in adults, management of (Sethi et al.), 909
Collateral pathways of pulmonary ventilation, action of carbon dioxide on (Sealy and Seaber), 533
Colon bypass, left, and free fascia-muscle graft, successful surgical treatment with: malignant tracheoesophageal fistula secondary to Hodgkin's disease (Lambert), 820
Column, variable-, bubble oxygenator: new system for bubble oxygenation (Gomes et al.), 606
Coma, hypoglycemic, associated with benign pleural mesothelioma (Nelson et al.), 306
Common atrium associated with anomalous high insertion of inferior vena cava (Takanashi et al.), 912
Compression, outlet, thoracic, and ipsilateral subclavian steal syndromes, coexistent (Walker and Treasure), 874

Conduction, internodal: immediate and long-term effects of transverse circular incision of right atrium including atrial septum (Mohri et al.), 615
Congenital aneurysm of left atrium with associated defects in fibrous skeleton of heart (Amato et al.), 639
heart disease assessed by radionuclide scintigraphy, surgery of (Gates et al.), 767
obstruction to left ventricular outflow with ventricular-aortic prosthesis, relief of (Bernhard et al.), 223
tricuspid stenosis treated by palliative open operation: report of case (Barbero-Marcial et al.), 562
Constrictive pericarditis, chronic, using cardiopulmonary bypass, surgical treatment of (Copeland et al.), 236
Coronary artery(ies) anastomosis, saphenous vein–, use of Fogarty biliary catheter to create bloodless field for (Grow and Brantigan), 105
anomalies in patients with tetralogy of Fallot (Meyer et al.), 373
canine, hemodynamic characteristics of critical stenosis in (Elzinga and Skinner), 217
dissection, delayed, after angiography: case description with successful operative treatment (Harrison et al.), 880
effects of cardiac lymphatic obstruction on (Bradham et al.), 876
fistula, experimental (Reitz et al.), 278
left, common, postperfusion stenosis of (Hazan et al.), 703
main, stenotic, and impaired left ventricle, revascularization of (Urschel and Razzuk), 369
saphenous vein bypass grafts, aorta–: isolated and combined with other procedures (Assad-Morell et al.), 841
surgery, direct, in women, results of (Bolooki et al.), 271
blood flow distribution of pig, effect of normothermic anoxic arrest and ventricular fibrillation on (Engelman et al.), 858
collateral blood flow in acute myocardial infarction (Cox et al.), 117
insufficiency, acute, with three years' follow-up, surgical management for (Hammond and Poirier), 625
saphenous vein bypass graft operations, aorta–, serum enzyme data in diagnosis of myocardial infarction during or early after (Assad-Morell et al.), 851
surgery, risk of: two hundred consecutive patients with no hospital deaths (Wisoff et al.), 669
Coronary—Cont'd
vascular response to ischemia in awake dog, neurogenic influences on (Bache et al.), 421
vein anastomosis, internal mammary artery–, direct selective myocardial revascularization by (Park et al.), 63
Correction, simultaneous, of associated anomalies in infants, closed aortic valvotomy and (Trinkle et al.), 758
Cricoid fracture, traumatic avulsion of trachea associated with (Ashbaugh and Gordon), 800
Cultures, serial, localization of endovascular infection by selective catheterization with (Bach et al.), 377
sputum, selective: bronchial culture technique using modified nasotracheal suction catheter with sterile, inner telescoping cannula (Cattaneo et al.), 152
Cyanotic and acyanotic children before and after open intracardiac operations with Bentley Temptrol oxygenator, fibrinolysis in (Pike et al.), 922
Cystic carcinoma of esophagus, adenoid, primary: report of case and review of literature (Pourzand et al.), 785
Cytology, lavage, alveolar, in transplanted lungs. I. Staining methods and findings in dogs with autografts and allografts without immunosuppression (Achterrath et al.), 510

D

Defect(s), associated, in fibrous skeleton of heart, congenital aneurysm of the left atrium with (Amato et al.), 639
septal, interventricular, from penetrating injuries of heart: report of 12 cases and review of literature (Asfaw et al.), 450
ventricular, and interrupted aortic arch: direct repair through median sternotomy incision in 13-day-old infant (Trusler and Izukawa), 126
surgical anatomy of pulmonary atresia with: pseudotruncus (Bharati et al.), 713
Deposits in tubular membrane oxygenator after prolonged extracorporeal circulation, nature of: scanning electron microscope study (Guidoin et al.), 479
Diamond anastomosis: technique for creating right-angle side-to-side vascular anastomosis (Grow and Brantigan), 188
Diaphragm after lung resection, upward displacement of (Feofilov et al.), 315

Disease, Christmas (hemophilia B), tricuspid atresia with: report of case (Lawson et al.), 585
heart, congenital, assessed by radionuclide scintigraphy, surgery of (Gates et al.), 767
Hodgkin's, malignant tracheoesophageal fistula secondary to: successful surgical treatment with free fascia-muscle graft and left colon bypass (Lambert), 820
von Willebrand's, open-heart surgery in (Aris et al.), 183
Displacement, upward, of diaphragm after lung resection (Feofilov et al.), 315
Dissection, artery, coronary, delayed, after angiography: case description with successful operative treatment (Harrison et al.), 880
Dose-response curve to individualize heparin and protamine dosage, use of, II. Heparin therapy during extracorporeal circulation (Bull et al.), 685
Double prosthetic aortic valve: case report (Liddicoat et al.), 763
Ductus arteriosus, complicated, through transpulmonary route using hypothermia, closure of: surgical considerations in one case (Gonçalves-Estella et al.), 698
persistent, simultaneous mitral valve replacement and ligation of: case report (Monro et al.), 102
Dura mater cardiac valves, homologous: study of 533 surgical cases (Puig et al.), 722

E

Editorial: Do prosthetic heart valves really make clots? (Effler), 664
use of povidone-iodine in vascular surgery (Feldtman et al.), 972
Electrical hazard, surgical, dissimilar metals in rib spreader as (Feldtman et al.), 804
Electrode(s), new, transvenous atrial pacing with (Lajos and Wanka), 575
pacemaker, cardiac, permanent, advantages of transthoracic placement of (Tyers et al.), 8
size and pulse duration variation as factors in pacemaker longevity (Furman et al.), 382
Electron microscope study, scanning: nature of deposits in tubular membrane oxygenator after prolonged extracorporeal circulation (Guidoin et al.), 479
Embolism, air, fatal, during thoracotomy for gunshot injury to lung: report of case (Donato et al.), 827
Embolization of bullets (Keshishian), 329 (Letter)
Endocardial, sub-, ischemia after cardiopulmonary bypass, clinical method for detecting (Philips et al.), 30
Endocarditis, fungal, role of valve replacement in treatment of (Utley et al.), 255
Endovascular infection by selective catheterization with serial cultures, localization of (Bach et al.), 377
Enzyme data, serum, in diagnosis of myocardial infarction during or early after aorta-coronary saphenous vein bypass graft operations (Assad-Morell et al.), 851
-mapping verification, macroscopic, of large, homogeneous, experimental myocardial infarcts of predictable size and location in dogs (Lie et al.), 599
Epidermolysis bullosa, radical surgical treatment of esophageal stenosis due to (Králík and Rapant), 790
Esophageal lesion, unusual, another: granular cell myoblastoma (Calhoun et al.), 472
stenosis due to epidermolysis bullosa, radical surgical treatment of (Králík and Rapant), 790
Esophagus with achalasia, association of carcinoma of (Hankins and McLaughlin), 355
primary adenoid cystic carcinoma of: report of case and review of literature (Pourzand et al.), 785
Extracorporeal circulation and blood platelets: kinetic studies on dogs on cardiopulmonary bypass (de Leval et al.), 144
heparin therapy during. I. Problems inherent in existing heparin protocols (Bull et al.), 674
II. Use of dose-response curve to individualize heparin and protamine dosage (Bull et al.), 685
prolonged, nature of deposits in tubular membrane oxygenator after: scanning electron microscope study (Guidoin et al.), 479
oxygenation, model for investigation of: pulmonary insufficiency induced by oleic acid in sheep (Gemer et al.), 793
perfusion for acute respiratory failure: recent experience with spiral coil membrane lung (Zapol et al.), 439
Extrathoracic bypass for stenosis of innominate artery (Sethi et al.), 212

F

Failure, respiratory, acute, extracorporeal perfusion for: recent experience with spiral coil membrane lung (Zapol et al.), 439

Failure, respiratory, acute—Cont'd
survival following ten days' support with membrane lung (Kolobow et al.), 947
Fallot, tetralogy of, with atresia of left pulmonary artery: surgical repair using homograft aortic valve (Goldsmith et al.), 458
coronary artery anomalies in patients with (Meyer et al.), 373
Fellowship, Traveling, Graham, 974
Femoral artery bypass, left atrial–, method of closed-chest cannulation of left atrium for (Glassman et al.), 283
and carotid arteries, distribution of oxygenated blood in experimental perfusion via (Esato et al.), 467
Fibrillation, ventricular, ischemic, restoration of myocardial bioenergetic metabolism in swine after periods of (Skinner et al.), 729
and normothermic anoxic arrest on coronary blood flow distribution of pig, effect of (Engelman et al.), 858
Fibrinolysis in cyanotic and acyanotic children before and after open intracardiac operations with Bentley Temptrol oxygenator (Pike et al.), 922
Fibrous skeleton of heart, congenital aneurysm of left atrium with associated defects in (Amato et al.), 639
Fistula, artery, coronary, experimental (Reitz et al.), 278
tracheoesophageal, malignant, secondary to Hodgkin's disease: successful surgical treatment with free fascia-muscle graft and left colon bypass (Lambert), 820
Flow, blood, collateral, coronary, in acute myocardial infarction (Cox et al.), 117
myocardial, regional, and myocardial pressure, surgical aspects of (Baird et al.), 17
distribution, blood, coronary, of pig, effect of normothermic anoxic arrest and ventricular fibrillation on (Engelman et al.), 858
Fogarty biliary catheter to create bloodless field for saphenous vein–coronary artery anastomosis, use of (Grow and Brantigan), 105
Fracture, cricoid, traumatic avulsion of trachea associated with (Ashbaugh and Gordon), 800
Function and survival after left ventricular aneurysmectomy (Cooperman et al.), 321
ventricular, poor, myocardial revascularization in patients with (Mitchel et al.), 52
Fungal endocarditis, role of valve replacement in treatment of (Utley et al.), 255

G

Gore-Tex membrane oxygenator, experimental evaluation of (Esato and Eiseman), 690
Graft(s), bypass, saphenous vein, aorta–coronary artery: isolated and combined with other procedures (Assad-Morell et al.), 841
fascia-muscle, free, and left colon bypass, successful surgical treatment with: malignant tracheoesophageal fistula secondary to Hodgkin's disease (Lambert), 820
operations, bypass, saphenous vein, aorta-coronary, serum enzyme data in diagnosis of myocardial infarction during or early after (Assad-Morell et al.), 851
Graham Traveling Fellowship, 974
Granular cell myoblastoma: another unusual esophageal lesion (Calhoun et al.), 472
Granulomatous aortitis in child, saccular aneurysm of ascending aorta caused by (Zumbro et al.), 397
Gunshot injury to lung, fatal air embolism during thoracotomy for: report of case (Donato et al.), 827

H

Hazard, electrical, surgical, dissimilar metals in rib spreader as (Feldtman et al.), 804
Heart allografts, rat, during rejection, accumulation of ^{131}I hippurate in (Moore et al.), 402
artificial, total, one 25 day survivor with (Honda et al.), 92
cavernous hemangioma of: case report and review of literature (Tabry et al.), 415
disease, congenital, assessed by radionuclide scintigraphy, surgery of (Gates et al.), 767
interventricular septal defects from penetrating injuries of: report of 12 cases and review of literature (Asfaw et al.), 450
recurrent ulcer of thoracic stomach penetrating: report of case and review of literature (Lam et al.), 835
transplantation, human, hemodynamic observations in early period after (Stinson et al.), 264
valves, prosthetic, do they really make clots? (Effler), 664 (Edit.)
Hemangioma, cavernous, of heart: case report and review of literature (Tabry et al.), 415
Hemodilution, acute, in dogs, lung water accumulation with (Cooper et al.), 957
Hemodynamic characteristics of critical stenosis in canine coronary arteries (Elzinga and Skinner), 217

Hemodynamic—Cont'd
observations in early period after human heart transplantation (Stinson et al.), 264
performance and metabolism in working swine heart, correlation of: experimental model for studying myocardial ischemia (Liedtke et al.), 203
Hemolysis, importance of pericardial blood as source of: comparison of membrane and bubble oxygenation as used in cardiopulmonary bypass in patients (Siderys et al.), 708
Hemophilia B (Christmas disease), tricuspid atresia with: report of case (Lawson et al.), 585
Heparin therapy during extracorporeal circulation. I. Problems inherent in existing heparin protocols (Bull et al.), 674
II. Use of dose-response curve to individualize heparin and protamine dosage (Bull et al.), 685
Hodgkin's disease, malignant tracheoesophageal fistula secondary to: successful surgical treatment with free fascia-muscle graft and left colon bypass (Lambert), 820
Homograft aortic valve, surgical repair using: tetralogy of Fallot with atresia of left pulmonary artery (Goldsmith et al.), 458
Homologous dura mater cardiac valves: study of 533 surgical cases (Puig et al.), 722
Hypertension, pulmonary, intrapulmonary balloon for temporary relief of (Barbero-Marical et al.), 942
Hypoglycemic coma associated with benign pleural mesothelioma (Nelson et al.), 306
Hypothermia, closure of complicated ductus arteriosus through transpulmonary route using: surgical considerations in one case (Gonçalves-Estella et al.), 698

I

^{131}I hippurate in rat heart allografts during rejection, accumulation of (Moore et al.), 402
Immunosuppression, staining methods and findings in dogs with autografts and allografts without, I. Alveolar lavage cytology in trannsplanted lungs (Achterrath et al.), 510
Incision, circular, transverse, of right atrium including atrial septum, immediate and long-term effects of: internodal conduction (Mohri et al.), 615
Infant(s), closed aortic valvotomy and simultaneous correction of associated anomalies in (Trinkle et al.), 758
Infant(s)—Cont'd
premature, aorto-pulmonary shunt in: technical considerations (Roe), 437
13-day-old, direct repair through median sternotomy incision in: interrupted aortic arch and ventricular septal defect (Trusler and Izukawa), 126
Infarct(s), myocardial, experimental, homogeneous, large, of predictable size and location in dogs, macroscopic enzyme-mapping verification of (Lie et al.), 599
Infarction, myocardial, acute, coronary collateral blood flow in (Cox et al.), 117
during or early after aorta-coronary saphenous vein bypass graft operations, serum enzyme data in diagnosis of (Assad-Morell et al.), 851
pseudoaneurysm of left ventricle after: curable form of myocardial rupture (Gueron et al.), 736
pre-, angina, rationale for surgery in (Matloff et al.), 73
Infection, endovascular, by selective catheterization with serial cultures, localization of (Bach et al.), 377
Inferior vena cava, common atrium associated with anomalous high insertion of (Takanashi et al.), 912
Injury(ies), blunt, to branches of aortic arch (Castagna and Nelson), 521
gunshot, to lung, fatal air embolism during thoracotomy for: report of case (Donato et al.), 827
penetrating, of heart, interventricular septal defects from: report of 12 cases and review of literature (Asfaw et al.), 450
Innominate artery, extrathoracic bypass for stenosis of (Sethi et al.), 212
Insufficiency, coronary, acute, with three years' follow-up, surgical management for (Hammond and Poirier), 625
pulmonary, induced by oleic acid in sheep: model for investigation of extracorporeal oxygenation (Gemer et al.), 793
Intercostal artery(ies) in adults, management of coarctation with multiple calcified aneurysms of (Sethi et al.), 909
in patient with neurofibromatosis and scoliosis, spontaneous rupture of (Butchart et al.), 919
neuralgia with 10 per cent ammonium sulfate, treatment of (Miller et al.), 476
Internodal conduction: immediate and long-term effects of transverse circular incision of right atrium including atrial septum (Mohri et al.), 615

Interruption, aortic arch, in neonate, palliative operation for all types of (Jones et al.), 579

Interventricular septal defects from penetrating injuries of heart: report of 12 cases and review of literature (Asfaw et al.), 450

Intracardiac operations, open, with Bentley Temptrol oxygenator, fibrinolysis in cyanotic and acyanotic children before and after (Pike et al.), 922

Intrapulmonary balloon for temporary relief of pulmonary hypertension (Barbero-Marcial et al.), 942

Ischemia in awake dog, neurogenic influences on coronary vascular response to (Bache et al.), 421

myocardial, experimental model for studying: correlation of hemodynamic performance and metabolism in working swine heart (Liedtke et al.), 203

subendocardial, after cardiopulmonary bypass, clinical method for detecting (Philips et al.), 30

Ischemic arrest by intracoronary tetrodotoxin administration, mechanism of myocardial protection from (Tyers et al.), 190

ventricular fibrillation, restoration of myocardial bioenergetic metabolism in swine after periods of (Skinner et al.), 729

K

Kinetic studies on dogs on cardiopulmonary bypass: blood platelets and extracorporeal circulation (de Leval et al.), 144

L

Landé-Edwards membrane oxygenator without pump as total lung prosthesis (Vanderhoeft et al.), 196

Lavage cytology, alveolar, in transplanted lungs. I. Staining methods and findings in dogs with autografts and allografts without immunosuppression (Achterrath et al.), 510

Ligation of circumflex artery, control of arrhythmias following (Armiger et al.), 891

of persistent ductus arteriosus and mitral valve replacement, simultaneous: case report (Monro et al.), 102

Lobe, lung, bronchographic and angiologic observations in experimental autotransplantation of lung or (Rabinovich), 806

Localization of endovascular infection by selective catheterization with serial cultures (Bach et al.), 377

Longevity, pacemaker, pulse duration variation and electrode size as factors in (Furman et al.), 382

Lungs, fatal air embolism during thoracotomy for gunshot injury to: report of case (Donato et al.), 827

or lung lobe, bronchographic and angiologic observations in experimental autotransplantation of (Rabinovich), 806

membrane, spiral coil, recent experience with: extracorporeal perfusion for acute respiratory failure (Zapol et al.), 439

survival following ten days' support with: acute respiratory failure (Kolobow et al.), 947

open versus needle biopsy of: How valuable to patient? (Lincoln et al.), 507

prosthesis, total, Landé-Edwards membrane oxygenator without pump as (Vanderhoeft et al.), 196

resection, upward displacement of diaphragm after (Feofilov et al.), 315

right, total sequestration of (Jona and Raffensperger), 361

transplanted, alveolar lavage cytology in. I. Staining methods and findings in dogs with autografts and allografts without immunosuppression (Achterrath et al.), 510

water accumulation with acute hemodilution in dogs (Cooper et al.), 957

Lymphatic obstruction, cardiac, on coronary arteries, effects of (Bradham et al.), 876

Lymphatics, cardiac, effects of obstruction of (Parker et al.), 390

Lysosomal activation and acid phosphatase activity in dog heart after one hour of cardiopulmonary bypass, effect of different methods of protecting myocardium on (McCallister et al.), 644

M

Macroscopic enzyme-mapping verification of large, homogeneous, experimental myocardial infarcts of predictable size and location in dogs (Lie et al.), 599

Malformations, cardiac, complex, ascending aorta–right pulmonary artery anastomosis in children with: long-term results in 30 cases (Ortega et al.), 927

Malfunction, false, of mitral disc-valve prosthesis, cause of: first-degree atrioventricular block. Case report (Stefadouros et al.), 776

Malignant tracheoesophageal fistula secondary to Hodgkin's disease: successful surgical treatment with free fascia-muscle graft and left colon bypass (Lambert), 820

Mammary artery–coronary vein anastomosis, internal, direct selective myocardial revascularization by (Park et al.), 63

Management of coarctation of aorta during pregnancy (Barash et al.), 781

Mapping, enzyme-, verification, macroscopic, of large, homogeneous, experimental myocardial infarcts of predictable size and location in dogs (Lie et al.), 599

Marlex mesh and pericardium, tracheal reconstruction with prosthesis of (Moghissi), 499

Median sternotomy, repeat, surgical considerations in patients undergoing (Macmanus et al.), 138

Membrane lung, spiral coil, recent experience with: extracorporeal perfusion for acute respiratory failure (Zapol et al.), 439

survival following ten days' support with: acute respiratory failure (Kolobow et al.), 947

oxygenator in awake ponies, prolonged perfusion with (Rawlings et al.), 539

Gore-Tex, experimental evaluation of (Esato and Eiseman), 690

Landé-Edwards, without pump as total lung prosthesis (Vanderhoeft et al.), 196

for open-heart surgery, some advantages of (Wright et al.), 884

support, long-term, cannulation of ascending aorta for (Cooper et al.), 905

tubular, after prolonged extracorporeal circulation, nature of deposits in: scanning electron microscope study (Guidoin et al.), 479

Mesothelioma, pleural, benign, hypoglycemic coma associated with (Nelson et al.), 306

Metabolism, bioenergetic, myocardial, in swine after periods of ischemic ventricular fibrillation, restoration of (Skinner et al.), 729

and hemodynamic performance in working swine heart, correlation of: experimental model for studying myocardial ischemia (Liedtke et al.), 203

Metastatic bronchogenic carcinoma, radioisotope scans in evaluation of (Gutierrez et al.), 934

Methylprednisolone during cardiopulmonary bypass, use of: review of 427 cases (Dietzman et al.), 870

Microscope study, electron, scanning: nature of deposits in tubular membrane oxygenator after prolonged extracorporeal circulation (Guidoin et al.), 479

Migration, successful removal and simple technique to prevent: wandering bullet (Petsas et al.), 954

Mitral disc-valve prosthesis, cause of false malfunction of: first-degree atrioventricular block. Case report (Stefadouros et al.), 776

prosthesis, new, results with: complications of cloth-covered prosthetic valves (Wukasch et al.), 107

stenosis in young patients, profile and surgical management of (John et al.), 631

and tricuspid valves with prostheses, continuous sutures in replacement of (Murtra et al.), 132

valve during atrial arrhythmias in man, blood velocity at (Benchimol et al.), 230

replacement and ligation of persistent ductus arteriosus, simultaneous: case report (Monro et al.), 102

rupture of posterior wall of left ventricle after (Zacharias et al.), 259

with Smeloff-Cutter prosthesis: experience with 154 patients and comparison with results of replacement with Starr-Edwards prosthesis (Oxman et al.), 247

with turtleneck-disc prosthesis (Oparah et al.), 568

Mononeuritis multiplex: complication of open-heart surgery (Keates et al.), 816

Multiplex, mononeuritis: complication of open-heart surgery (Keates et al.), 816

Multivariate analysis, profile of high risk based on: selection of candidate for myocardial revascularization (Loop et al.), 40

Muscle bundle, right ventricular, anomalous: repair through right atrium (Wallsh et al.), 830

Myoblastoma, granular cell: another unusual esophageal lesion (Calhoun et al.), 472

Myocardial bioenergetic metabolism in swine after periods of ischemic ventricular fibrillation, restoration of (Skinner et al.), 729

blood flow, regional, and myocardial pressure, surgical aspects of (Baird et al.), 17

infarction, acute, coronary collateral blood flow in (Cox et al.), 117

during or early after aorta-coronary saphenous vein bypass graft operations, serum enzyme data in diagnosis of (Assad-Morell et al.), 851

Myocardial infarction—Cont'd
pseudoaneurysm of left ventricle after: curable form of myocardial rupture (Gueron et al.), 736
infarcts, experimental, homogeneous, large, of predictable size and location in dogs, macroscopic enzyme-mapping verification of (Lie et al.), 599
Myocardial ischemia, experimental model for studying: correlation of hemodynamic performance and metabolism in working swine heart (Liedtke et al.), 203
pacing thresholds, effects of acid-base imbalance on (Hughes et al.), 743
protection from ischemic arrest by intracoronary tetrodotoxin administration, mechanism of (Tyers et al.), 190
revascularization in patients with poor ventricular function (Mitchel et al.), 52
selection of candidate for: profile of high risk based on multivariate analysis (Loop et al.), 40
selective, direct, by internal mammary artery–coronary vein anastomosis (Park et al.), 63
Myocardium on lysosomal activation and acid phosphatase activity in dog heart after one hour of cardiopulmonary bypass, effect of different methods of protecting (McCallister et al.), 644
Myxomas, atrial, bilateral: preoperative diagnosis and successful removal (Zajtchuk et al.), 291

N

Needle versus open biopsy of lung: How valuable to patient? (Lincoln et al.), 507
Neonate, palliative operation for all types of aortic arch interruption in (Jones et al.), 579
Neuralgia, intercostal, with 10 per cent ammonium sulfate, treatment of (Miller et al.), 476
Neurofibromatosis and scoliosis, spontaneous rupture of intercostal artery in patient with (Butchart et al.), 919
Neurogenic influences on coronary vascular response to ischemia in awake dog (Bache et al.), 421
Nodal, inter-, conduction: immediate and long-term effects of transverse circular incision of right atrium including atrial septum (Mohri et al.), 615

O

Obituary: William E. Adams (1902-1973): adherence to sound principles, 160
Obstruction of cardiac lymphatics, effects of (Parker et al.), 390
Obstruction—Cont'd
congenital, to left ventricular outflow with ventricular-aortic prosthesis, relief of (Bernhard et al.), 223
lymphatic, cardiac, on coronary arteries, effects of (Bradham et al.), 876
tracheobronchial, surgical management of anomalous left pulmonary artery causing: pulmonary artery sling (Koopot et al.), 239
Oleic acid in sheep, pulmonary insufficiency induced by: model for investigation of extracorporeal oxygenation (Gemer et al.), 793
Open-heart surgery, complication of: mononeuritis multiplex (Keates et al.), 816
some advantages of membrane oxygenator for (Wright et al.), 884
in von Willebrand's disease (Aris et al.), 183
operation, palliative, congenital tricuspid stenosis treated by: report of case (Barbero-Marcial et al.), 562
versus needle biopsy of lung: How valuable to patient? (Lincoln et al.), 507
Outflow tract, pulmonary, in classically corrected transposition (Anderson et al.), 747
ventricular, left, with ventricular-aortic prosthesis, relief of congenital obstruction to (Bernhard et al.), 223
Outlet compression, thoracic, and ipsilateral subclavian steal syndromes, coexistent (Walker and Treasure), 874
Oxygenated blood in experimental perfusion via femoral and carotid arteries, distribution of (Esato et al.), 467
Oxygenation, extracorporeal, model for investigation of: pulmonary insufficiency induced by oleic acid in sheep (Gemer et al.), 793
membrane and bubble, as used in cardiopulmonary bypass in patients, comparison of: importance of pericardial blood as source of hemolysis (Siderys et al.), 708
Oxygenator, bubble, variable-column: new system for bubble oxygenation (Gomes et al.), 606
membrane, in awake ponies, prolonged perfusion with (Rawlings et al.), 539
Gore-Tex, experimental evaluation of (Esato and Eiseman), 690
Landé-Edwards, without pump as total lung prosthesis (Vanderhoeft et al.), 196
for open-heart surgery, some advantages of (Wright et al.), 884

Oxygenator, membrane—Cont'd
tubular, after prolonged extracorporeal circulation, nature of deposits in: scanning electron microscope study (Guidoin et al.), 479
support, membrane, long-term, cannulation of ascending aorta for (Cooper et al.), 905
Temptrol, Bentley, fibrinolysis in cyanotic and acyanotic children before and after open intracardiac operations with (Pike et al.), 922

P

Pacemaker(s) electrodes, cardiac, permanent, advantages of transthoracic placement of (Tyers et al.), 8
longevity, pulse duration variation and electrode size as factors in (Furman et al.), 382
runaway, in seven patients: persisting problem (Nasrallah et al.), 365
transvenous, permanent, four hundred consecutive patients with (Conklin et al.), 1
Pacer, cardiac, radioisotope-powered, new (Purdy et al.), 82
Pacing, atrial, transvenous, with new electrode (Lajos and Wanka), 575
cardiac, transvenous, permanent, complications of (Grögler et al.), 895
thresholds, myocardial, effects of acid-base imbalance on (Hughes et al.), 743
Palliative open operation, congenital tricuspid stenosis treated by: report of case (Barbero-Marcial et al.), 562
operation for all types of aortic arch interruption in neonate (Jones et al.), 579
treatment of complete transposition of great vessels: first clinical results of closed atrial septectomy with new septectome (Rastan), 407
Penetrating injuries of heart, interventricular septal defects from: report of 12 cases and review of literature (Asfaw et al.), 450
Perfusion, experimental, via femoral and carotid arteries, distribution of oxygenated blood in (Esato et al.), 467
extracorporeal, for acute respiratory failure: recent experience with spiral coil membrane lung (Zapol et al.), 439
post-, stenosis of common left coronary artery (Hazan et al.), 703
prolonged, with membrane oxygenator in awake ponies (Rawlings et al.), 539
Pericardial blood as source of hemolysis, importance of: comparison of membrane and bubble oxygenation as used in cardiopulmonary bypass in patients (Siderys et al.), 708
Pericarditis, constrictive, chronic, using cardiopulmonary bypass, surgical treatment of (Copeland et al.), 236
Pericardium and Marlex mesh, tracheal reconstruction with prosthesis of (Moghissi), 499
Permanent cardiac pacemaker electrodes, advantages of transthoracic placement of (Tyers et al.), 8
transvenous cardiac pacing, complications of (Grögler et al.), 895
pacemakers, four hundred consecutive patients with (Conklin et al.), 1
Platelets, blood, and extracorporeal circulation: kinetic studies on dogs on cardiopulmonary bypass (de Leval et al.), 144
Pleural mesothelioma, benign, hypoglycemic coma associated with (Nelson et al.), 306
Postperfusion stenosis of common left coronary artery (Hazan et al.), 703
Povidone-iodine in vascular surgery, use of (Feldtman et al.), 972 (Edit.)
Pregnancy, management of coarctation of aorta during (Barash et al.), 781
Preinfarction angina, rationale for surgery in (Matloff et al.), 73
Premature infant, aorto-pulmonary shunt in: technical considerations (Roe), 437
Pressure, myocardial, and regional myocardial blood flow, surgical aspects of (Baird et al.), 17
viscosity, and resistance, arterial, during cardiopulmonary bypass, changes in (Gordon et al.), 552
Primary adenoid cystic carcinoma of esophagus: report of case and review of literature (Pourzand et al.), 785
Prolonged perfusion with membrane oxygenator in awake ponies (Rawlings et al.), 539
Prosthesis(es), continuous sutures in replacement of mitral and tricuspid valves with (Murtra et al.), 132
disc-valve, mitral, cause of false malfunction of: first-degree atrioventricular block. Case report (Stefadouros et al.), 776
lung, total, Landé-Edwards membrane oxygenator without pump as (Vanderhoeft et al.), 196
of Marlex mesh and pericardium, tracheal reconstruction with (Moghissi), 499
mitral, new, results with: complications of cloth-covered prosthetic valves (Wukasch et al.), 107

Prosthesis(es)—Cont'd
Smeloff-Cutter, mitral valve replacement with: experience with 154 patients and comparison with results of replacement with Starr-Edwards prosthesis (Oxman et al.), 247
turtleneck-disc, mitral valve replacement with (Oparah et al.), 568
ventricular-aortic, relief of congenital obstruction to left ventricular outflow with (Bernhard et al.), 223
Prosthetic aortic valve, double: case report (Liddicoat et al.), 763
heart valves, do they really make clots? (Effler), 664 (Edit.)
Protamine and heparin dosage, use of dose-response curve to individualize, II. Heparin therapy during extracorporeal circulation (Bull et al.), 685
Protection, myocardial, from ischemic arrest by intracoronary tetrodotoxin administration, mechanism of (Tyers et al.), 190
Pseudoaneurysm of left ventricle after myocardial infarction: curable form of myocardial rupture (Gueron et al.), 736
Pseudotruncus: surgical anatomy of pulmonary atresia with ventricular septal defect (Bharati et al.), 713
Pulmonary artery anastomosis, ascending aorta–right, in children with complex cardiac malformations: long-term results in 30 cases (Ortega et al.), 927
left, anomalous, causing tracheobronchial obstruction, surgical management of: pulmonary artery sling (Koopot et al.), 239
tetralogy of Fallot with atresia of: surgical repair using homograft aortic valve (Goldsmith et al.), 458
sling (Sade et al.), 333
atresia with ventricular septal defect, surgical anatomy of: pseudotruncus (Bharati et al.), 713
hypertension, intrapulmonary balloon for temporary relief of (Barbero-Marcial et al.), 942
insufficiency induced by oleic acid in sheep: model for investigation of extracorporeal oxygenation (Gemer et al.), 793
outflow tract in classically corrected transposition (Anderson et al.), 747
shunt, aorto-, in premature infant: technical considerations (Roe), 437
sling: case report and collective review (Grover et al.), 295
ventilation, action of carbon dioxide on collateral pathways of (Sealy and Seaber), 533
Pulse duration variation and electrode size as factors in pacemaker longevity (Furman et al.), 382

R

Radioisotope-powered cardiac pacer, new (Purdy et al.), 82
scans in evaluation of metastatic bronchogenic carcinoma (Gutierrez et al.), 934
Radionuclide scintigraphy, surgery of congenital heart disease assessed by (Gates et al.), 767
Reconstruction, tracheal, with prosthesis of Marlex mesh and pericardium (Moghissi), 499
Recurrent ulcer of thoracic stomach penetrating heart: report of case and review of literature (Lam et al.), 835
Regurgitation, aortic, determined by cardiac catheterization (Sasse), 329 (Letter)
Rejection, accumulation of ^{131}I hippurate in rat heart allografts during (Moore et al.), 402
Removal, successful, preoperative diagnosis and: bilateral atrial myxomas (Zajtchuk et al.), 291
and simple technique to prevent migration: wandering bullet (Petsas et al.), 954
Repair through right atrium: anomalous right ventricular muscle bundle (Wallsh et al.), 830
surgical, of total cleft sternum (Verska), 301
Replacement of mitral and tricuspid valves with prostheses, continuous sutures in (Murtra et al.), 132
valve, mitral, and ligation of persistent ductus arteriosus, simultaneous: case report (Monro et al.), 102
rupture of posterior wall of left ventricle after (Zacharias et al.), 259
with Smeloff-Cutter prosthesis: experience with 154 patients and comparison with results of replacement with Starr-Edwards prosthesis (Oxman et al.), 247
with turtleneck-disc prosthesis (Oparah et al.), 568
in treatment of fungal endocarditis, role of (Utley et al.), 255
venous, segmental: comparison of biological and synthetic substitutes (Smith et al.), 589
Resection, lung, upward displacement of diaphragm after (Feofilov et al.), 315
Resistance, pressure, and viscosity, arterial, during cardiopulmonary bypass, changes in (Gordon et al.), 552

Respiratory failure, acute, extracorporeal perfusion for: recent experience with spiral coil membrane lung (Zapol et al.), 439
survival following ten days' support with membrane lung (Kolobow et al.), 947
Response, vascular, coronary, to ischemia in awake dog, neurogenic influences on (Bache et al.), 421
Return, venous, systemic, anomalous, partial: report of surgical treatment in two cases (Crenshaw et al.), 433
Revascularization, myocardial, in patients with poor ventricular function (Mitchel et al.), 52
selection of candidate for: profile of high risk based on multivariate analysis (Loop et al.), 40
selective, direct, by internal mammary artery–coronary vein anastomosis (Park et al.), 63
of stenotic left main coronary artery and impaired left ventricle (Urschel and Razzuk), 369
Rheumatoid arthritis, thoracic surgical problems associated with (Yarbrough et al.), 347
Rib spreader as surgical electrical hazard, dissimilar metals in (Feldtman et al.), 804
Risk of coronary surgery: two hundred consecutive patients with no hospital deaths (Wisoff et al.), 669
Runaway pacemaker in seven patients: persisting problem (Nasrallah et al.), 365
Rupture, myocardial, curable form of: pseudoaneurysm of left ventricle after myocardial infarction (Gueron et al.), 736
of posterior wall of left ventricle after mitral valve replacement (Zacharias et al.), 259
spontaneous, of intercostal artery in patient with neurofibromatosis and scoliosis (Butchart et al.), 919

S

Saccular aneurysm of ascending aorta caused by granulomatous aortitis in child (Zumbro et al.), 397
Samson Thoracic Surgical Society: Announcement of 1975 Annual Meeting, 163, 331, 497, 667, 839
Announcement of 1976 Annual Meeting, 975
List of Officers and Members, 165
Program of 1975 Annual Meeting, 839
Saphenous vein–coronary artery anastomosis, use of Fogarty biliary catheter to create bloodless field for (Grow and Brantigan), 105
Scans, radioisotope, in evaluation of metastatic bronchogenic carcinoma (Gutierrez et al.), 934
Scintigraphy, radionuclide, surgery of congenital heart disease assessed by (Gates et al.), 767
Scoliosis and neurofibromatosis, spontaneous rupture of intercostal artery in patient with (Butchart et al.), 919
Segmental venous replacement: comparison of biological and synthetic substitutes (Smith et al.), 589
Septectome, new, first clinical results of closed atrial septectomy with: palliative treatment of complete transposition of great vessels (Rastan), 407
Septectomy, atrial, closed, with new septectome, first clinical results of: palliative treatment of complete transposition of great vessels (Rastan), 407
Septum, atrial, immediate and long-term effects of transverse circular incision of right atrium including: internodal conduction (Mohri et al.), 615
Sequestration, total, of right lung (Jona and Raffensperger), 361
Serum enzyme data in diagnosis of myocardial infarction during or early after aorta-coronary saphenous vein bypass graft operations (Assad-Morell et al.), 851
Shunt, aorto-pulmonary, in premature infant: technical considerations (Roe), 437
Sinus of Valsalva aneurysm, unruptured, isolated: serendipitous detection and correction (Mayer et al.), 429
Skeleton, fibrous, of heart, congenital aneurysm of left atrium with associated defects in (Amato et al.), 639
Sling, artery, pulmonary (Sade et al.), 333
surgical management of anomalous left pulmonary artery causing tracheobronchial obstruction (Koopot et al.), 239
pulmonary: case report and collective review (Grover et al.), 295
Smeloff-Cutter prosthesis, mitral valve replacement with: experience with 154 patients and comparison with results of replacement with Starr-Edwards prosthesis (Oxman et al.), 247
Spreader, rib, as surgical electrical hazard, dissimilar metals in (Feldtman et al.), 804
Sputum cultures, selective: bronchial culture technique using modified nasotracheal suction catheter with sterile, inner telescoping cannula (Cattaneo et al.), 152

Starr-Edwards prosthesis, experience with 154 patients and comparison with results of replacement with: mitral valve replacement with Smeloff-Cutter prosthesis (Oxman et al.), 247
Steal, subclavian, ipsilateral, and thoracic outlet compression syndromes, coexistent (Walker and Treasure), 874
Stenosis, critical, in canine coronary arteries, hemodynamic characteristics of (Elzinga and Skinner), 217
esophageal, due to epidermolysis bullosa, radical surgical treatment of (Králík and Rapant), 790
of innominate artery, extrathoracic bypass for (Sethi et al.), 212
mitral, in young patients, profile and surgical management of (John et al.), 631
postperfusion, of common left coronary artery (Hazan et al.), 703
tricuspid, congenital, treated by palliative open operation: report of case (Barbero-Marcial et al.), 562
Stenotic left main coronary artery and impaired left ventricle, revascularization of (Urschel and Razzuk), 369
Sternotomy incision, median, in 13-day-old infant, direct repair through: interrupted aortic arch and ventricular septal defect (Trusler and Izukawa), 126
median, repeat, surgical considerations in patients undergoing (Macmanus et al.), 138
Sternum, cleft, total, surgical repair of (Verska), 301
Stomach, thoracic, penetrating heart, recurrent ulcer of: report of case and review of literature (Lam et al.), 835
Subclavian steal, ipsilateral, and thoracic outlet compression syndromes, coexistent (Walker and Treasure), 874
Subendocardial ischemia after cardiopulmonary bypass, clinical method for detecting (Philips et al.), 30
Substitutes, biological and synthetic, comparison of: segmental venous replacement (Smith et al.), 589
Support, membrane oxygenator, long-term, cannulation of ascending aorta for (Cooper et al.), 905
ten days', with membrane lung, survival following: acute respiratory failure (Kolobow et al.), 947
Surgery, artery, coronary, direct, in women, results of (Bolooki et al.), 271
coronary, risk of: two hundred consecutive patients with no hospital deaths (Wisoff et al.), 669
Surgery—Cont'd
open-heart, some advantages of membrane oxygenator for (Wright et al.), 884
complication of: mononeuritis multiplex (Keates et al.), 816
in von Willebrand's disease (Aris et al.), 183
in preinfarction angina, rationale for (Matloff et al.), 73
vascular, use of povidone-iodine in (Feldtman et al.), 972 (Edit.)
Surgical considerations in patients undergoing repeat median sternotomy (Macmanus et al.), 138
electrical hazard, dissimilar metals in rib spreader as (Feldtman et al.), 804
management for acute coronary insufficiency with three years' follow-up (Hammond and Poirier), 625
and profile of mitral stenosis in young patients (John et al.), 631
problems, thoracic, associated with rheumatoid arthritis (Yarbrough et al.), 347
repair of total cleft sternum (Verska), 301
treatment of truncus arteriosus, current status of (Poirier et al.), 169
Survival and function after left ventricular aneurysmectomy (Cooperman et al.), 321
Syndromes, ipsilateral subclavian steal and thoracic outlet compression, coexistent (Walker and Treasure), 874
Synthetic and biological substitutes, comparison of: segmental venous replacement (Smith et al.), 589
Systemic venous return, anomalous, partial: report of surgical treatment in two cases (Crenshaw et al.), 433

T

Temptrol oxygenator, Bentley, fibrinolysis in cyanotic and acyanotic children before and after open intracardiac operations with (Pike et al.), 922
Tetralogy of Fallot with atresia of left pulmonary artery: surgical repair using homograft aortic valve (Goldsmith et al.), 458
coronary artery anomalies in patients with (Meyer et al.), 373
Tetrodotoxin administration, intracoronary, mechanism of myocardial protection from ischemic arrest by (Tyers et al.), 190
Therapy, heparin, during extracorporeal circulation. I. Problems inherent in existing heparin protocols (Bull et al.), 674
II. Use of dose-response curve to individualize heparin and protamine dosage (Bull et al.), 685

Thoracic outlet compression and ipsilateral subclavian steal syndromes, coexistent (Walker and Treasure), 874
stomach penetrating heart, recurrent ulcer of: report of case and review of literature (Lam et al.), 835
surgical problems associated with rheumatoid arthritis (Yarbrough et al.), 347
Thoracotomy for gunshot injury to lung, fatal air embolism during: report of case (Donato et al.), 827
Thresholds, pacing, myocardial, effects of acid-base imbalance on (Hughes et al.), 743
Total artificial heart, one 25 day survivor with (Honda et al.), 92
sequestration of right lung (Jona and Raffensperger), 361
Trachea associated with cricoid fracture, traumatic avulsion of (Ashbaugh and Gordon), 800
Tracheal reconstruction with prosthesis of Marlex mesh and pericardium (Moghissi), 499
Tracheobronchial obstruction, surgical management of anomalous left pulmonary artery causing: pulmonary artery sling (Koopot et al.), 239
Tracheoesophageal fistula, malignant, secondary to Hodgkin's disease: successful surgical treatment with free fascia-muscle graft and left colon bypass (Lambert), 820
Tract, outflow, pulmonary, in classically corrected transposition (Anderson et al.), 747
Transplantation, auto-, experimental, of lung or lung lobe, bronchographic and angiologic observations in (Rabinovich), 806
heart, human, hemodynamic observations in early period after (Stinson et al.), 264
Transplanted lungs, alveolar lavage cytology in. I. Staining methods and findings in dogs with autografts and allografts without immunosuppression (Achterrath et al.), 510
Transposition, classically corrected, pulmonary outflow tract in (Anderson et al.), 747
complete, of great vessels, palliative treatment of: first clinical results of closed atrial septectomy with new septectome (Rastan), 407
Transthoracic placement of permanent cardiac pacemaker electrodes, advantages of (Tyers et al.), 8
Transvenous atrial pacing with new electrode (Lajos and Wanka), 575
Transvenous—Cont'd
cardiac pacing, permanent, complications of (Grögler et al.), 895
pacemakers, permanent, four hundred consecutive patients with (Conklin et al.), 1
Traumatic avulsion of trachea associated with cricoid fracture (Ashbaugh and Gordon), 800
Treatment of intercostal neuralgia with 10 per cent ammonium sulfate (Miller et al.), 476
Tricuspid atresia with Christmas disease (hemophilia B): report of case (Lawson et al.), 585
and mitral valves with prostheses, continuous sutures in replacement of (Murtra et al.), 132
stenosis, congenital, treated by palliative open operation: report of case (Barbero-Marcial et al.), 562
Truncus arteriosus, current status of surgical treatment of (Poirier et al.), 169

U

Ulcer, recurrent, of thoracic stomach penetrating heart: report of case and review of literature (Lam et al.), 835
Unruptured, isolated sinus of Valsalva aneurysm: serendipitous detection and correction (Mayer et al.), 429

V

Valsalva aneurysm, sinus of, unruptured, isolated: serendipitous detection and correction (Mayer et al.), 429
Valve(s), aortic, homograft, surgical repair using: tetralogy of Fallot with atresia of left pulmonary artery (Goldsmith et al.), 458
prosthetic, double: case report (Liddicoat et al.), 763
cardiac, dura mater, homologous: study of 533 surgical cases (Puig et al.), 722
heart, prosthetic, do they really make clots? (Effler), 664 (Edit.)
mitral, during atrial arrhythmias in man, blood velocity at (Benchimol et al.), 230
and tricuspid, with prostheses, continuous sutures in replacement of (Murtra et al.), 132
prosthetic, cloth-covered, complications of: results with new mitral prosthesis (Wukasch et al.), 107
replacement, mitral, and ligation of persistent ductus arteriosus, simultaneous: case report (Monro et al.), 102
rupture of posterior wall of left ventricle after (Zacharias et al.), 259

Valve(s) replacement, mitral—Cont'd
with Smeloff-Cutter prosthesis: experience with 154 patients and comparison with results of replacement with Starr-Edwards prosthesis (Oxman et al.), 247
with turtleneck-disc prosthesis (Oparah et al.), 568
in treatment of fungal endocarditis, role of (Utley et al.), 255
Valvotomy, aortic, closed, and simultaneous correction of associated anomalies in infants (Trinkle et al.), 758
Variable-column bubble oxygenator: new system for bubble oxygenation (Gomes et al.), 606
Vascular anastomosis, side-to-side, right-angle, technique for creating: diamond anastomosis (Grow and Brantigan), 188
response, coronary, to ischemia in awake dog, neurogenic influences on (Bache et al.), 421
surgery, use of povidone-iodine in (Feldtman et al.), 972 (Edit.)
Velocity, blood, at mitral valve during atrial arrhythmias in man (Benchimol et al.), 230
Vena cava, inferior, common atrium associated with anomalous high insertion of (Takanashi et al.), 912
Venous replacement, segmental: comparison of biological and synthetic substitutes (Smith et al.), 589
return, systemic, anomalous, partial: report of surgical treatment in two cases (Crenshaw et al.), 433
Ventilation, pulmonary, action of carbon dioxide on collateral pathways of (Sealy and Seaber), 533
Ventricle, left, impaired, and stenotic left main coronary artery, revascularization of (Urschel and Razzuk), 369
after mitral valve replacement, rupture of posterior wall of (Zacharias et al.), 259
after myocardial infarction, pseudoaneurysm of: curable form of myocardial rupture (Gueron et al.), 736
Ventricular aneurysmectomy, left, survival and function after (Cooperman et al.), 321
fibrillation, ischemic, restoration of myocardial bioenergetic metabolism in swine after periods of (Skinner et al.), 729
and normothermic anoxic arrest on coronary blood flow distribution of pig, effect of (Engelman et al.), 858
function, poor, myocardial revascularization in patients with (Mitchel et al.), 52
inter-, septal defects from penetrating injuries of heart: report of 12 cases and review of literature (Asfaw et al.), 450
muscle bundle, right, anomalous: repair through right atrium (Wallsh et al.), 830
outflow, left, with ventricular-aortic prosthesis, relief of congenital obstruction to (Bernhard et al.), 223
septal defect and interrupted aortic arch: direct repair through median sternotomy incision in 13-day-old infant (Trusler and Izukawa), 126
surgical anatomy of pulmonary atresia with: pseudotruncus (Bharati et al.), 713
Vessels, great, complete transposition of, palliative treatment of: first clinical results of closed atrial septectomy with new septectome (Rastan), 407
viscosity, pressure, and resistance, arterial, during cardiopulmonary bypass, changes in (Gordon et al.), 552
von Willebrand's disease, open-heart surgery in (Aris et al.), 183

W

Water accumulation, lung, with acute hemodilution in dogs (Cooper et al.), 957
Women, results of direct coronary artery surgery in (Bolooki et al.), 271

Y

Young patients, profile and surgical management of mitral stenosis in (John et al.), 631

The Journal of THORACIC AND CARDIOVASCULAR SURGERY

Official organ, The American Association for Thoracic Surgery and The Samson Thoracic Surgical Society

Editor BRIAN BLADES, *Washington, D. C.*

Associate editors THOMAS H. BURFORD, *St. Louis*
PAUL ADKINS, *Washington, D. C.*

Advisory editorial board

Subject index*

A

ACD or CPD solution, oxygen dissociation after transfusion of blood stored in (Jesch et al.), 35

Acquired ventricular septal defects: evolution of operation, surgical technique, and results (Hill et al.), 440

Adenoacanthoma, endometrial (metastatic carcinoma), to trachea: report of successful resection and primary anastomosis (Zerner), 139

Adenocarcinomas, 12, report on 140 cases of Barrett's esophagus with. Columnar-lined lower esophagus: acquired lesion with malignant predisposition (Naef et al.), 826

Allotransplantation, valve, aortic, and blood group compatibility in man (Balch and Karp), 256

American Association for Thoracic Surgery: Announcement of 1976 Annual Meeting, 188, 376, 567, 755, 941, 1105
- Annual meeting notes, 186
- Graham Traveling Fellowship, 190, 378
- Roster of members, 543
- Board of Thoracic Surgery: Notice of 1976 examination, 192, 380, 570, 758, 944, 1108
- Notice of availability of 1974 Self-Assessment Examination for Thoracic Surgery, 944, 1108

Anastomosis(es) (Glenn), cava–pulmonary artery, during repair of congenital cardiac malformations, take-down of: report of 5 cases (Pacifico and Kirklin), 272

Anastomosis(es)—Cont'd
- primary, and successful resection, report of: metastatic carcinoma (endometrial adenoacanthoma) to trachea (Zerner), 139
- systemic–pulmonary artery, in infancy (Neches et al.), 912
- tracheal, primary, after resection of cricoid cartilage with preservation of recurrent laryngeal nerves (Pearson et al.), 806

Aneurysm(s), artery, coronary, multiple, resulting in myocardial infarction in young man: treatment by double aorta-coronary saphenous vein bypass grafting (Kitamura et al.), 290
- of saphenous vein bypass graft to coronary artery (Riahi et al.), 358
- ventricular, posterior, acute, with repair of ventricular septal defect after acute myocardial infarction, resection of (Crosby et al.), 57

Annuloplasty, De Vega's, and Carpentier's annulus: end of tricuspid challenge (Grondin et al.), 852

Annulus, Carpentier's, and De Vega's annuloplasty: end of tricuspid challenge (Grondin et al.), 852

Anomalous right coronary artery, surgical correction of congenital left coronary artery–main pulmonary artery fistula in association with (Achtel et al.), 46

Anoxic arrest (Cooley), 1026
- normothermic, coronary artery perfusion, and profound topical cardiac hypothermia, comparison of: long-term morphologic and hemodynamic evaluation of left ventricle after cardiopulmonary bypass (Brody et al.), 1073

*July, pp. 1-192; August, pp. 193-380; September, pp. 381-570; October, pp. 571-758; November, pp. 759-944; December, pp. 945-1140.

Antigen, tumor-associated, measured by leucine incorporation, lymphocyte responses of lung cancer patients to (Roth et al.), 613

Aorta, acute traumatic rupture of, new roentgenographic finding in (Gray and Kirsh), 86

ascending, and aortic and mitral valves in Marfan syndrome, successful emergency replacement of (Geha et al.), 223

-coronary bypass grafting with internal mammary artery: clinical experience in 70 patients (Cheanvechai et al.), 278

saphenous vein bypass grafting, double, treatment by: multiple coronary artery aneurysms resulting in myocardial infarction in young man (Kitamura et al.), 290

proximal, during long-term membrane lung perfusion, cannulation of (McEnany et al.), 631

Aortic arch, prosthetic replacement of (Griepp et al.), 1051

cross-clamping, drip retrograde coronary sinus perfusion for myocardial protection during (Poirier et al.), 966

with profound local hypothermia for myocardial protection during aorta-coronary bypass grafting, superiority of (Griepp et al.), 995

intra-, balloon pumping (Effler), 1024

unidirectional, intraoperative, in management of left ventricular power failure (Bregman et al.), 1010

and mitral valves and ascending aorta in Marfan syndrome, successful emergency replacement of (Geha et al.), 223

stenosis, congenital, associated with hypoplasia of aortic valve ring, new method for prosthetic valve replacement in (Konno et al.), 909

valve allotransplantation and blood group compatibility in man (Balch and Karp), 256

prosthetic, in vivo strain measurements of (Rainer et al.), 732

with Starr-Edwards prosthesis, isolated replacement of: 9 year review (Barnhorst et al.), 113

Apudoma, malignant, oat cell carcinoma as (Smith), 147

Arch, aortic, prosthetic replacement of (Griepp et al.), 1051

Arrest, anoxic (Cooley), 1026

normothermic, coronary artery perfusion, and profound topical cardiac hypothermia, comparison of: long-term morphologic and hemodynamic evaluation of left ventricle after cardiopulmonary bypass (Brody et al.), 1073

Arrest—Cont'd

circulatory, and deep hypothermia in infants, study of electroencephalogram during surgery with (Weiss et al.), 316

ischemic, protective effect of methylprednisolone on heart during (Busuttil et al.), 955

Arrhythmias, pacemaker-induced, on coronary blood velocity in conscious man, effect of (Benchimol and Desser), 344

Arterial implants, mammary, internal, and bypass conduits for myocardial revascularization, fate of: experimental angiographic, histologic, and ultrastructural observations (Mullerworth et al.), 89

oxygen tension and arterial blood pressure, continuous, simultaneous measurement of (Gold and Duarte), 656

stenosis, coronary, during cardiopulmonary bypass, significance of (Engelman et al.), 869

Arterialization, selective, of coronary veins for diffuse coronary occlusion: experimental evaluation (Chiu and Mulder), 177

Arteriovenous fistula, pulmonary, traumatic (Arom and Lyons), 918

Artery(ies) anastomoses, systemic–pulmonary, in infancy (Neches et al.), 912

aneurysms, coronary, multiple, resulting in myocardial infarction in young man: treatment by double aorta-coronary saphenous vein bypass grafting (Kitamura et al.), 290

coronary, aneurysm of saphenous vein bypass graft to (Riahi et al.), 358

right, anomalous, surgical correction of congenital left coronary artery–main pulmonary artery fistula in association with (Achtel et al.), 46

by retrograde perfusion of mammary artery, revascularization of: experimental study (Florian et al.), 19

disease, coronary, in patients with poor ventricular function, long-term functional results of surgery for (Fox et al.), 1064

great, transposition of, obstruction of superior vena cava after Mustard procedure for: conservative management of chylothorax (Cumming and Ferguson), 242

unusual complication after total correction of: case report (Wildevuur et al.), 471

implants, ventricular–internal mammary, increases longevity, evidence that revascularization by: twenty-four year, nine month follow-up (Vineberg), 381

Artery(ies)—Cont'd
left anterior descending coronary, and right ventricle, traumatic fistula between: case report with successful surgical repair (Sutherland et al.), 692
mammary, internal, aorta-coronary bypass grafting with: clinical experience in 70 patients (Cheanvechai et al.), 278
and vein grafts, anatomic, physiological, and angiographic considerations of: selection of coronary bypass (Geha et al.), 414
–right heart fistula, coronary, traumatic: report of case and review of literature (Reyes et al.), 52
surgery, coronary, in patients with extensive coronary artery disease, improved survival after (Ullyot et al.), 405
Artificial heart, thrombus generation within (Olsen et al.), 248
total, refinement in application of, with improvement in survival and histopathological findings (Honda et al.), 214
Aspergillosis, pulmonary, surgery in (Henderson et al.), 1088
Atrial autotransplantation, technique for: new approach to total repair of transposition of great vessels (Taguchi et al.), 282
septal defect, secundum, and congestive heart failure in infants, complex of (Phillips et al.), 696
Atrioventricular canal, complete, associated with tetralogy of Fallot: clinical experience and operative methods (Fisher et al.), 265
Autologous whole blood to reduce banked-blood requirements in open-heart surgical patients, failure of transfusion of (Pliam et al.), 338
Autotransplantation, atrial, technique for: new approach to total repair of transposition of great vessels (Taguchi et al.), 282

B

Balloon pumping, intra-aortic (Effler), 1024
unidirectional, intraoperative, in management of left ventricular power failure (Bregman et al.), 1010
Banked-blood requirements in open-heart surgical patients, failure of transfusion of autologous whole blood to reduce (Pliam et al.), 338
Barotrauma during mechanical ventilation, form of: pulmonary hyperinflation (Baeza et al.), 790
Barrett's esophagus with 12 adenocarcinomas, report on 140 cases of. Columnar-lined lower esophagus: acquired lesion with malignant predisposition (Naef et al.), 826
Beall mitral valve prosthesis, failure of: clinical and radiographic features (Jost et al.), 163
Birth of society (Dugan), 759 (Presidential Address)
Blalock-Taussig shunt in first six months of life (Laks et al.), 687
Blood coagulation of exclusive use of transfusions of frozen red cells during and after cardiopulmonary bypass, effect on (Umlas and Sakhuja), 519
filtration during deep hypothermia in puppies, protection from lung damage by (Hill et al.), 133
flow, myocardial, regional, in experimental pulmonary stenosis, effects of systemic-pulmonary shunts on (Cooper et al.), 166
group compatibility and aortic valve allotransplantation in man (Balch and Karp), 256
pressure, arterial, and arterial oxygen tension, continuous, simultaneous measurement of (Gold and Duarte), 656
stored in ACD or CPD solution, oxygen dissociation after transfusion of (Jesch et al.), 35
velocity, coronary, in conscious man, effect of pacemaker-induced arrhythmias on (Benchimol and Desser), 344
whole, autologous, to reduced banked-blood requirements in open-heart surgical patients, failure of transfusion of (Pliam et al.), 338
Bridge saphenous vein graft (Cheanvechai et al.), 63
Bronchogenic carcinoma, long-term survival in (Ashor et al.), 581
Broncholithiasis, surgical implication of (Faber et al.), 779
Bypass, cardiopulmonary, detection of water-to-blood leakages in heat exchangers for (de Jong et al.), 735
dynamics of subendocardial flow during (Reuben et al.), 989
effect on blood coagulation of exclusive use of transfusions of frozen red cells during and after (Umlas and Sakhuja), 519
long-term morphologic and hemodynamic evaluation of left ventricle after: comparison of normothermic anoxic arrest, coronary artery perfusion, and profound topical cardiac hypothermia (Brody et al.), 1073

Bypass, cardiopulmonary—Cont'd
myocardial preservation during: overview (Maloney and Nelson), 1040
prevention by adequate myocardial protection during: depressed postoperative cardiac performance (Buckberg et al.), 974
significance of coronary arterial stenosis during (Engelman et al.), 869
on size of human platelets, influence of (Laufer et al.), 727
conduits and internal mammary arterial implants for myocardial revascularization, fate of: experimental angiographic, histologic, and ultrastructural observations (Mullerworth et al.), 89
coronary, selection of: anatomic, physiological, and angiographic considerations of vein and mammary artery grafts (Geha et al.), 414
gastric, substernal, of excluded thoracic esophagus for palliation of esophageal carcinoma (Orringer and Sloan), 836
graft, saphenous vein, to coronary artery, aneurysm of (Riahi et al.), 358
grafting, aorta-coronary, superiority of aortic cross-clamping with profound local hypothermia for myocardial protection during (Griepp et al.), 995
with internal mammary artery: clinical experience in 70 patients (Cheanvechai et al.), 278
double aorta-coronary saphenous vein, treatment by: multiple coronary artery aneurysms resulting in myocardial infarction in young man (Kitamura et al.), 290
and myocardial injury: value of serum enzymes in diagnosis (Codd et al.), 489
heart, left, oxygen consumption of normal and failing heart during (Wakabayashi et al.), 9
surgery, cardiopulmonary, platelet support for (Harding et al.), 350
ventricular, left, temporary, new method for: preclinical appraisal (Bernhard et al.), 880

C

Cadaver heart, canine, simple method of resuscitation and short-term preservation of (Cooper), 896
California, Alta, thoracic surgery comes to. Part I (Brewer), 571 (Inaugural Address) Part II (Brewer), 763 (Inaugural Address)
Canal, atrioventricular, complete, associated with tetralogy of Fallot: clinical experience and operative methods (Fisher et al.), 265
Cancer(s), lung, primary, multiple (Martini and Melamed), 606
resected, primary, long-term intermittent adjuvant chemotherapy for (Katsuki et al.), 590
patients, lung, to tumor-associated antigen measured by leucine incorporation, lymphocyte responses of (Roth et al.), 613
Cannulation of proximal aorta during long-term membrane lung perfusion (McEnany et al.), 631
Carcinoma(s), bronchogenic, long-term survival in (Ashor et al.), 581
esophageal, substernal gastric bypass of excluded thoracic esophagus for palliation of (Orringer and Sloan), 836
of esophagus and cardia: diagnostic evaluation in 113 cases (Bruni and Nelson), 367
metastatic (endometrial adenoacanthoma) to trachea: report of successful resection and primary anastomosis (Zerner), 139
oat cell, as malignant apudoma (Smith), 147
in superior pulmonary sulcus (Paulson), 1095
Cardia and esophagus, carcinoma of: diagnostic evaluation in 113 cases (Bruni and Nelson), 367
Cardiac function early after repair of tetralogy of Fallot (Pouleur et al.), 24
malformations, congenital, take-down of cava–pulmonary artery anastomosis (Glenn) during repair of: report of 5 cases (Pacifico and Kirklin), 272
pacer, radioisotope-powered, new, in vivo study of (Smyth et al.), 2
pacing, permanent, at regional medical center (Wise and Sensenig), 677
performance, postoperative, depressed: prevention by adequate myocardial protection during cardiopulmonary bypass (Buckberg et al.), 974
valves, dura mater, homologous: structural aspects of eight implanted valves (Nuno-Conceição et al.), 499
Cardiopulmonary bypass, detection of water-to-blood leakages in heat exchangers for (de Jong et al.), 735
dynamics of subendocardial flow during (Reuben et al.), 989
effect on blood coagulation of exclusive use of transfusions of frozen red cells during and after (Umlas and Sakhuja), 519
long-term morphologic and hemodynamic evaluation of left ventricle after: comparison of normothermic anoxic arrest, coronary artery perfusion, and profound topical cardiac hypothermia (Brody et al.), 1073

Cardiopulmonary bypass—Cont'd
myocardial preservation during: overview (Maloney and Nelson), 1040
prevention by adequate myocardial protection during: depressed postoperative cardiac performance (Buckberg et al.), 974
significance of coronary arterial stenosis during (Engelman et al.), 869
on size of human platelets, influence of (Laufer et al.), 727
surgery, platelet support for (Harding et al.), 350
Carpentier's annulus and De Vega's annuloplasty: end of tricuspid challenge (Grondin et al.), 852
Cava–pulmonary artery anastomosis (Glenn) during repair of congenital cardiac malformations, take-down of: report of 5 cases (Pacifico and Kirklin), 272
Chemotherapy, adjuvant, intermittent, long-term, for primary, resected lung cancer (Katsuki et al.), 590
Chest injuries, nonpenetrating, operative stabilization of (Moore), 619
Chylothorax, conservative management of: obstruction of superior vena cava after Mustard procedure for transposition of great arteries (Cumming and Ferguson), 242
Cigarette smoking, continued, on patency of synthetic vascular grafts in Leriche syndrome, effect of (Robicsek et al.), 107
Circulation, extracorporeal, frequency of abnormal platelet functions during and after, II. Hemostatic mechanism after open-heart surgery (McKenna et al.), 298
plasma lipids during (Ghirardi et al.), 661
studies on plasma coagulation factors and fibrinolysis in 512 patients after, I. Hemostatic mechanism after open-heart surgery (Bachmann et al.), 76
pulmonary, reversal of (Dosios et al.), 229
Circulatory arrest and deep hypothermia in infants, study of electroencephalogram during surgery with (Weiss et al.), 316
Closure, primary, of pericardium after open-heart surgery on frequency of tamponade, postcardiotomy syndrome, and pulmonary complications, influence of (Cunningham et al.), 119
Coagulation, blood, of exclusive use of transfusions of frozen red cells during and after cardiopulmonary bypass, effect on (Umlas and Sakhuja), 519
factors, plasma, and fibrinolysis in 512 patients after extracorporeal circulation, studies on, I. Hemostatic mechanism after open-heart surgery (Bachmann et al.), 76
Columnar-lined lower esophagus: acquired lesion with malignant predisposition. Report on 140 cases of Barrett's esophagus with 12 adenocarcinomas (Naef et al.), 826
Commissurotomy, valve, quadruple (Borman et al.), 712
Complex of secundum atrial septal defect and congestive heart failure in infants (Phillips et al.), 696
valve, mitral, parachute: case report and review of literature (Schachner et al.), 451
Compliance, ventricular, effects of myocardial ischemia on: protective role of hydrocortisone (Toyama and Reis), 458
Conduits, bypass, and internal mammary arterial implants for myocardial revascularization, fate of: experimental angiographic, histologic, and ultrastructural observations (Mullerworth et al.), 89
Congenital aortic stenosis associated with hypoplasia of aortic valve ring, new method for prosthetic valve replacement in (Konno et al.), 909
cardiac malformations, take-down of cava–pulmonary artery anastomosis (Glenn) during repair of: report of 5 cases (Pacifico and Kirklin), 272
diverticulum of right ventricle (Copeland et al.), 536
left coronary artery–main pulmonary artery fistula in association with anomalous right coronary artery, surgical correction of (Achtel et al.), 46
lung malformations: unified concept and case report (Demos and Teresi), 260
mitral stenosis (Khalil et al.), 40
Congestive heart failure and secundum atrial septal defect in infants, complex of (Phillips et al.), 696
Conscious man, effect of pacemaker-induced arrhythmias on coronary blood velocity in (Benchimol and Desser), 344
Constrictive pericarditis, cystic thymoma simulating: role of echocardiography in differential diagnosis (Schloss et al.), 143
Construction of new right ventricle on epicardium: possible correction for underdevelopment of right ventricle (Seki et al.), 330
Consumption, oxygen, of normal and failing heart during left heart bypass (Wakabayashi et al.), 9
Contracture, ischemic, of left ventricle: production and prevention (MacGregor et al.), 945
Cor triatriatum, surgical correction of rare variant of (Victor et al.), 354

Coronary arterial stenosis during cardiopulmonary bypass, significance of (Engelman et al.), 869
artery aneurysm(s), multiple, resulting in myocardial infarction in young man: treatment by double aorta-coronary saphenous vein bypass grafting (Kitamura et al.), 290
of saphenous vein bypass graft to (Riahi et al.), 358
disease in patients with poor ventricular function, long-term functional results of surgery for (Fox et al.), 1064
left anterior descending, and right ventricle, traumatic fistula between: case report with successful surgical repair (Sutherland et al.), 692
–main pulmonary artery fistula, left, congenital, in association with anomalous right coronary artery, surgical correction of (Achtel et al.), 46
perfusion, normothermic anoxic arrest, and profound topical cardiac hypothermia, comparison of: long-term morphologic and hemodynamic evaluation of left ventricle after cardiopulmonary bypass (Brody et al.), 1073
–right heart fistula, traumatic: report of case and review of literature (Reyes et al.), 52
by retrograde perfusion of mammary artery, revascularization of: experimental study (Florian et al.), 19
surgery in patients with extensive coronary artery disease, improved survival after (Ullyot et al.), 405
blood velocity in conscious man, effect of pacemaker-induced arrhythmias on (Benchimol and Desser), 344
bypass grafting, aorta-, superiority of aortic cross-clamping with profound local hypothermia for myocardial protection during (Griepp et al.), 995
with internal mammary artery: clinical experience in 70 patients (Cheanvechai et al.), 278
selection of: anatomic, physiological, and angiographic considerations of vein and mammary artery grafts (Geha et al.), 414
endarterectomy, manual: clinical experience in 315 patients (Cheanvechai et al.), 524
perfusion (McGoon), 1025
(Spencer), 1029
sinus perfusion, retrograde, drip, for myocardial protection during aortic cross-clamping (Poirier et al.), 966
Coronary—Cont'd
veins for diffuse coronary occlusion, selective arterialization of: experimental evaluation (Chiu and Mulder), 177
Correction, total, of transposition of great arteries, unusual complication after: case report (Wildevuur et al.), 471
CPD or ACD solution, oxygen dissociation after transfusion of blood stored in (Jesch et al.), 35
Cricoid cartilage with preservation of recurrent laryngeal nerves, primary tracheal anastomosis after resection of (Pearson et al.), 806
Cross-clamping, aortic, drip retrograde coronary sinus perfusion for myocardial protection during (Poirier et al.), 966
with profound local hypothermia for myocardial protection during aorta-coronary bypass grafting, superiority of (Griepp et al.), 995
Culture of tracheobronchial tree (Pecora), 184 (Letter); Reply (Cattaneo), 184
Cystic thymoma simulating constrictive pericarditis: role of echocardiography in differential diagnosis (Schloss et al.), 143

D

Dacron prosthesis, knitted, preclotting of: scanning electron microscope study (Guidoin et al.), 152
Defect(s), septal, atrial, secundum, and congestive heart failure in infants, complex of (Phillips et al.), 696
ventricular, acquired: evolution of operation, surgical technique, and results (Hill et al.), 440
after acute myocardial infarction, resection of acute posterior ventricular aneurysm with repair of (Crosby et al.), 57
Depressed postoperative cardiac performance: prevention by adequate myocardial protection during cardiopulmonary bypass (Buckberg et al.), 974
De Vega's annuloplasty and Carpentier's annulus: end of tricuspid challenge (Grondin et al.), 852
Dipyridamole and thrombocyte count in open-heart surgery (Nuutinen and Mononen), 707
Disease, artery, coronary, extensive, improved survival after coronary artery surgery in patients with (Ullyot et al.), 405
in patients with poor ventricular function, long-term functional results of surgery for (Fox et al.), 1064
Dissociation, oxygen, after transfusion of blood stored in ACD or CPD solution (Jesch et al.), 35

Diverticulum, congenital, of right ventricle (Copeland et al.), 536

Dura mater cardiac valves, homologous: structural aspects of eight implanted valves (Nuno-Conceição et al.), 499

Dynamics of subendocardial flow during cardiopulmonary bypass (Reuben et al.), 989

E

Echocardiography in differential diagnosis, role of: cystic thymoma simulating constrictive pericarditis (Schloss et al.), 143

Electroencephalogram during surgery with deep hypothermia and circulatory arrest in infants, study of (Weiss et al.), 316

Electron microscope study, scanning: preclotting of knitted Dacron prosthesis (Guidoin et al.), 152

Endarterectomy, coronary, manual: clinical experience in 315 patients (Cheanvechai et al.), 524

Endobronchial polyp: case presentation (Sears et al.), 371

Endocarditis, infective, primary, left-sided, case for early surgical treatment of: collective review (Jung et al.), 509

Endometrial adenoacanthoma (metastatic carcinoma) to trachea: report of successful resection and primary anastomosis (Zerner), 139

Enzymes, serum, in diagnosis, value of: myocardial injury and bypass grafting (Codd et al.), 489

Epicardium, construction of new right ventricle on: possible correction for underdevelopment of right ventricle (Seki et al.), 330

Esophageal spasm, diffuse, pre- and postoperative manometric studies in (París et al.), 126

Esophagogastrostomy: analysis of 55 cases (Boyd et al.), 817

Esophagus and cardia, carcinoma of: diagnostic evaluation in 113 cases (Bruni and Nelson), 367

lower, columnar-lined: acquired lesion with malignant predisposition. Report on 140 cases of Barrett's esophagus with 12 adenocarcinomas (Naef et al.), 826

prosthetic replacement of (Salama), 739

thoracic, excluded, for palliation of esophageal carcinoma, substernal gastric bypass of (Orringer and Sloan), 836

Exchangers, heat, for cardiopulmonary bypass, detection of water-to-blood leakages in (de Jong et al.), 735

Extracorporeal circulation, frequency of abnormal platelet functions during and after, II. Hemostatic mechanism after open-heart surgery (McKenna et al.), 298

plasma lipids during (Ghirardi et al.), 661

studies on plasma coagulation factors and fibrinolysis in 512 patients after, I. Hemostatic mechanism after open-heart surgery (Bachmann et al.), 76

membrane oxygenation, platelets, hemostasis, and thromboembolism during treatment of acute respiratory insufficiency with: experience with 28 clinical perfusions (Heiden et al.), 644

F

Factors, coagulation, plasma, and fibrinolysis in 512 patients after extracorporeal circulation, studies on, I. Hemostatic mechanism after open-heart surgery (Bachmann et al.), 76

Failure of Beall mitral valve prosthesis: clinical and radiographic features (Jost et al.), 163

heart, congestive, and secundum atrial septal defect in infants, complex of (Phillips et al.), 696

myocardial, and pericardial tamponade, technique for distinguishing between (Frater), 541 (Letter); Reply (Meckstroth), 542

power, left ventricular, intraoperative unidirectional intra-aortic balloon pumping in management of (Bregman et al.), 1010

Fallot, tetralogy of, associated with complete atrioventricular canal: clinical experience and operative methods (Fisher et al.), 265

cardiac function early after repair of (Pouleur et al.), 24

intracardiac repair of: five-year review of 403 patients (Chiariello et al.), 529

Fascia lata, morphologic observations on heart valve prostheses made of (Silver et al.), 360.

Fibrillation, ventricular (Baird), 1027

Fibrinolysis and plasma coagulation factors in 512 patients after extracorporeal circulation, studies on, I. Hemostatic mechanism after open-heart surgery (Bachmann et al.), 76

Filtration, blood, during deep hypothermia in puppies, protection from lung damage by (Hill et al.), 133

Fistula, arteriovenous, pulmonary, traumatic (Arom and Lyons), 918

Fistula—Cont'd
congenital left coronary artery–main pulmonary artery, in association with anomalous right coronary artery, surgical correction of (Achtel et al.), 46
traumatic, between left anterior descending coronary artery and right ventricle: case report with successful surgical repair (Sutherland et al.), 692
coronary artery–right heart: report of case and review of literature (Reyes et al.), 52
Flow, blood, myocardial, regional, in experimental pulmonary stenosis, effects of systemic-pulmonary shunts on (Cooper et al.), 166
subendocardial, during cardiopulmonary bypass, dynamics of (Reuben et al.), 989
Frozen red cells during and after cardiopulmonary bypass, effect on blood coagulation of exclusive use of transfusions of (Umlas and Sakhuja), 519
Function(s), cardiac, early after repair of tetralogy of Fallot (Pouleur et al.), 24
platelet, abnormal, during and after extracorporeal circulation, frequency of, II. Hemostatic mechanism after open-heart surgery (McKenna et al.), 298
and ultrastructure, myocardial, during progressive early ischemia in intact heart (Lichtig and Brooks), 309
ventricular, left, before and after elimination of chronic regurgitation in dog, effects on: experimental mitral regurgitation (Rankin et al.), 478
poor, long-term functional results of surgery for coronary artery disease in patients with (Fox et al.), 1064

G

Gastric bypass, substernal, of excluded thoracic esophagus for palliation of esophageal carcinoma (Orringer and Sloan), 836
Gore-Tex for heart valves, use of (Gore), 540 (Letter)
Graft(s), bypass, saphenous vein, to coronary artery, aneurysm of (Riahi et al.), 358
vascular, synthetic, in Leriche syndrome, effect of continued cigarette smoking on patency of (Robicsek et al.), 107
vein and mammary artery, anatomic, physiological, and angiographic considerations of: selection of coronary bypass (Geha et al.), 414
saphenous, bridge (Cheanvechai et al.), 63
Grafting, aorta-coronary bypass, superiority of aortic cross-clamping with profound local hypothermia for myocardial protection during (Griepp et al.), 995
Grafting, aorta-coronary bypass—Cont'd
with internal mammary artery: clinical experience in 70 patients (Cheanvechai et al.), 278
bypass, and myocardial injury: value of serum enzymes in diagnosis (Codd et al.), 489
double aorta-coronary saphenous vein bypass, treatment by: multiple coronary artery aneurysms resulting in myocardial infarction in young man (Kitamura et al.), 290

H

Heart, artificial, thrombus generation within (Olsen et al.), 248
total, refinement in application of, with improvement in survival and histopathological findings (Honda et al.), 214
cadaver, canine, simple method of resuscitation and short-term preservation of (Cooper), 896
–coronary artery fistula, right, traumatic: report of case and review of literature (Reyes et al.), 52
during ischemic arrest, protective effect of methylprednisolone on (Busuttil et al.), 955
failure, congestive, and secundum atrial septal defect in infants, complex of (Phillips et al.), 696
intact, myocardial ultrastructure and function during progressive early ischemia in (Lichtig and Brooks), 309
normal and failing, during left heart bypass, oxygen consumption of (Wakabayashi et al.), 9
surgery, postoperative psychosis after (Sveinsson), 717
traumatic rupture of pericardium with luxation of: case report and review of literature (Mattila et al.), 495
valves, use of Gore-Tex for (Gore), 540 (Letter)
Heat exchangers for cardiopulmonary bypass, detection of water-to-blood leakages in (de Jong et al.), 735
Hemostasis, platelets, and thromboembolism during treatment of acute respiratory insufficiency and extracorporeal membrane oxygenation: experience with 28 clinical perfusions (Heiden et al.), 644
Hemostatic mechanism after open-heart surgery. I. Studies on plasma coagulation factors and fibrinolysis in 512 patients after extracorporeal circulation (Bachmann et al.), 76
II. Frequency of abnormal platelet functions during and after extracorporeal circulation (McKenna et al.), 298

Histopathological findings and survival, refinement in application of total artificial heart, with improvement in (Honda et al.), 214
Homologous dura mater cardiac valves: structural aspects of eight implanted valves (Nuno-Conceição et al.), 499
Honored Speaker's Address: surgery in sub-Arctic: thoracic surgeon's odyssey (Thomas), 203
Hydrocortisone, protective role of: effects of myocardial ischemia on ventricular compliance (Toyama and Reis), 458
Hyperinflantion, pulmonary: form of barotrauma during mechanical ventilation (Baeza et al.), 790
Hypoplasia of aortic valve ring, new method for prosthetic valve replacement in congenital aortic stenosis associated with (Konno et al.), 909
Hypothermia, cardiac, topical, profound, normothermic anoxic arrest, and coronary artery perfusion, comparison of: long-term morphologic and hemodynamic evaluation of left ventricle after cardiopulmonary bypass (Brody et al.), 1073
deep, and circulatory arrest in infants, study of electroencephalogram during surgery with (Weiss et al.), 316
in puppies, protection from lung damage by blood filtration during (Hill et al.), 133
local, profound, for myocardial protection during aorta-coronary bypass grafting, superiority of aortic cross-clamping with (Griepp et al.), 995

I

Implant(s), arterial, mammary, internal, and bypass conduits for myocardial revascularization, fate of: experimental angiographic, histologic, and ultrastructural observations (Mullerworth et al.), 89
ventricular–internal mammary artery, increases longevity, evidence that revascularization by: twenty-four year, nine month follow-up (Vineberg), 381
Implantation, pacemaker, transthoracic and transvenous (Furman), 183 (Letter); Reply (Tyers), 183
Inaugural Address: Thoracic surgery comes to Alta California. Part I (Brewer), 571
Part II (Brewer), 763
Infancy. Blalock-Taussig shunt in first six months of life (Laks et al.), 687
systemic–pulmonary artery anastomoses in (Neches et al.), 912
Infant(s), complex of secundum atrial septal defect and congestive heart failure in (Phillips et al.), 696
Infant(s)—Cont'd
study of electroencephalogram during surgery with deep hypothermia and circulatory arrest in (Weiss et al.), 316
Infarction, myocardial, acute, resection of acute posterior ventricular aneurysm with repair of ventricular septal defect after (Crosby et al.), 57
surgical emergency (Berg et al.), 432
in young man, multiple coronary artery aneurysms resulting in: treatment by double aorta-coronary saphenous vein bypass grafting (Kitamura et al.), 290
Infective endocarditis, primary, left-sided, case for early surgical treatment of: collective review (Jung et al.), 509
Infusion, simultaneous, of levarterenol and phentolamine on canine myocardium, morphologic effects of (Bove et al.), 701
Injury(ies), chest, nonpenetrating, operative stabilization of (Moore), 619
myocardial, and bypass grafting: value of serum enzymes in diagnosis (Codd et al.), 489
Insight and reflection, time for (Bigelow), 193 (Presidential Address)
Insufficiency, respiratory, acute, with extracorporeal membrane oxygenation, platelets, hemostasis, and thromboembolism during treatment of: experience with 28 clinical perfusions (Heiden et al.), 644
Intra-aortic balloon pumping (Effler), 1024
unidirectional, intraoperative, in management of left ventricular power failure (Bregman et al.), 1010
Intracardiac repair of tetralogy of Fallot: five-year review of 403 patients (Chiariello et al.), 529
Ischemia, early, progressive, in intact heart, myocardial ultrastructure and function during (Lichtig and Brooks), 309
myocardial, on ventricular compliance, effects of: protective role of hydrocortisone (Toyama and Reis), 458
Ischemic arrest, protective effect of methylprednisolone on heart during (Busuttil et al.), 955
contracture of left ventricle: production and prevention (MacGregor et al.), 945
and scarred myocardium by localized detection of potassium-42 in dogs, intraoperative delineation of (Kirk et al.), 100

K

Kay-Shiley disc valve, isolated mitral valve replacement with: actuarial analysis of long-term results (Wellons et al.), 862

L

Laryngeal nerves, recurrent, primary tracheal anastomosis after resection of cricoid cartilage with preservation of (Pearson et al.), 806

Leakages, water-to-blood, in heat exchangers for cardiopulmonary bypass, detection of (de Jong et al.), 735

Leriche syndrome, effect of continued cigarette smoking on patency of synthetic vascular grafts in (Robicsek et al.), 107

Leucine incorporation, lymphocyte responses of lung cancer patients to tumor-associated antigen measured by (Roth et al.), 613

Levarterenol and phentolamine on canine myocardium, morphologic effects of simultaneous infusion of (Bove et al.), 701

Lipids, plasma, during extracorporeal circulation (Ghirardi et al.), 661

Longevity, evidence that revascularization by ventricular–internal mammary artery implants increases: twenty-four year, nine month follow up (Vineberg), 381

Lung cancer(s) patients to tumor-associated antigen measured by leucine incorporation, lymphocyte responses of (Roth et al.), 613

primary, multiple (Martini and Melamed), 606

resected, primary, long-term intermittent adjuvant chemotherapy for (Katsuki et al.), 590

damage by blood filtration during deep hypothermia in puppies, protection from (Hill et al.), 133

malformations, congenital: unified concept and case report (Demos and Teresi), 260

perfusion, membrane, long-term, cannulation of proximal aorta during (McEnany et al.), 631

Luxation of heart, traumatic rupture of pericardium with: case report and review of literature (Mattila et al.), 495

Lymphocyte responses of lung cancer patients to tumor-associated antigen measured by leucine incorporation (Roth et al.), 613

Lymphoma of trachea, solitary, primary (Pradhan et al.), 938

M

Malformation(s), cardiac, congenital, take-down of cava–pulmonary artery anastomosis (Glenn) during repair of: report of 5 cases (Pacifico and Kirklin), 272

lung, congenital: unified concept and case report (Demos and Teresi), 260

Malformation(s)—Cont'd

Taussig-Bing, left ventricular outflow obstruction in: anatomic and surgical implications (Goor and Ebert), 69

Malignant apudoma, oat cell carcinoma as (Smith), 147

predisposition, acquired lesion with. Report on 140 cases of Barrett's esophagus with 12 adenocarcinomas: columnar-lined lower esophagus (Naef et al.), 826

Mammary arterial implants, internal, and bypass conduits for myocardial revascularization, fate of: experimental angiographic, histologic, and ultrastructural observations (Mullerworth et al.), 89

artery implants, ventricular–internal, increases longevity, evidence that revascularization by: twenty-four year, nine month follow-up (Vineberg), 381

internal, aorta-coronary bypass grafting with: clinical experience in 70 patients (Cheanvechai et al.), 278

revascularization of right coronary artery by retrograde perfusion of: experimental study (Florian et al.), 19

and vein grafts, anatomic, physiological, and angiographic considerations of: selection of coronary bypass (Geha et al.), 414

Manometric studies, pre- and postoperative, in diffuse esophageal spasm (París et al.), 126

Manual coronary endarterectomy: clinical experience in 315 patients (Cheanvechai et al.), 524

Marfan syndrome, successful emergency replacement of ascending aorta and aortic and mitral valves in (Geha et al.), 223

Mechanical ventilation, form of barotrauma during: pulmonary hyperinflation (Baeza et al.), 790

Mediastinum, anterior, distribution of thymic tissue at: current procedures in thymectomy (Masaoka et al.), 747

Membrane lung perfusion, long-term cannulation of proximal aorta during (McEnany et al.), 631

oxygenation, extracorporeal, platelets, hemostasis, and thromboembolism during treatment of acute respiratory insufficiency with: experience with 28 clinical perfusions (Heiden et al.), 644

Metastatic carcinoma (endometrial adenoacanthoma) to trachea: report of successful resection and primary anastomosis (Zerner), 139

Methylprednisolone on heart during ischemic arrest, protective effect of (Busuttil et al.), 955

Microscope study, electron, scanning: preclotting of knitted Dacron prosthesis (Guidoin et al.), 152

Mitral and aortic valves and ascending aorta in Marfan syndrome, successful emergency replacement of (Geha et al.), 223
regurgitation, experimental: effects on left ventricular function before and after elimination of chronic regurgitation in dog (Rankin et al.), 478
stenosis, congenital (Khalil et al.), 40
valve complex, parachute: case report and review of literature (Schachner et al.), 451
prosthesis, Beall, failure of: clinical and radiographic features (Jost et al.), 163
replacement, isolated, with Kay-Shiley disc valve: actuarial analysis of long-term results (Wellons et al.), 862
valvotomy, closed (Moran), 184 (Letter); Reply (Bhayana), 185

Morphologic effects of simultaneous infusion of levarterenol and phentolamine on canine myocardium (Bove et al.), 701
observations on heart valve prostheses made of fascia lata (Silver et al.), 360

Mustard procedure for transposition of great arteries, obstruction of superior vena cava after: conservative management of chylothorax (Cumming and Ferguson), 242

Myocardial blood flow, regional, in experimental pulmonary stenosis, effects of systemic-pulmonary shunts on (Cooper et al.), 166
failure and pericardial tamponade, technique for distinguishing between (Frater), 541 (Letter); Reply (Meckstroth), 542
infarction, acute, resection of acute posterior ventricular aneurysm with repair of ventricular septal defect after (Crosby et al.), 57
surgical emergency (Berg et al.), 432
in young man, multiple coronary artery aneurysms resulting in: treatment by double aorta-coronary saphenous vein bypass grafting (Kitamura et al.), 290
injury and bypass grafting: value of serum enzymes in diagnosis (Codd et al.), 489
ischemia on ventricular compliance, effects of: protective role of hydrocortisone (Toyama and Reis), 458
preservation (Engelman), 1028
(Kahn), 1028

Myocardial, preservation—Cont'd
during cardiopulmonary bypass: overview (Maloney and Nelson), 1040
protection, adequate, during cardiopulmonary bypass, prevention by: depressed postoperative cardiac performance (Buckberg et al.), 974
during aorta-coronary bypass grafting, superiority of aortic cross-clamping with profound local hypothermia for (Griepp et al.), 995
during aortic cross-clamping, drip retrograde coronary sinus perfusion for (Poirier et al.), 966
revascularization, fate of internal mammary arterial implants and bypass conduits for: experimental angiographic, histologic, and ultrastructural observations (Mullerworth et al.), 89
scintigraphy: post-Vineberg study (Begg et al.), 398
ultrastructure and function during progressive early ischemia in intact heart (Lichtig and Brooks), 309
preservation of (Stemmer et al.), 666
Myocardium, canine, morphologic effects of simultaneous infusion of levarterenol and phentolamine on (Bove et al.), 701
ischemic and scarred, by localized detection of potassium-42 in dogs, intraoperative delineation of (Kirk et al.), 100

N

Nerves, laryngeal, recurrent, primary tracheal anastomosis after resection of cricoid cartilage with preservation of (Pearson et al.), 806

Nonpenetrating chest injuries, operative stabilization of (Moore), 619

Normothermic anoxic arrest, coronary artery perfusion, and profound topical cardiac hypothermia, comparison of: long-term morphologic and hemodynamic evaluation of left ventricle after cardiopulmonary bypass (Brody et al.), 1073

O

Oat cell carcinoma as malignant apudoma (Smith), 147

Obstruction, outflow, ventricular, left, in Taussig-Bing malformation: anatomic and surgical implications (Goor and Ebert), 69
of superior vena cava after Mustard procedure for transposition of great arteries: conservative management of chylothorax (Cumming and Ferguson), 242

Occlusion, coronary, diffuse, selective arterialization of coronary veins for (Chiu and Mulder), 177
Open-heart surgical patients, failure of transfusion of autol ogous whole blood to reduce banked-blood requirements in (Pliam et al.), 338
surgery, dipyridamole and thrombocyte count in (Nuutinen and Mononen), 707
on frequency of tamponade, postcardiotomy syndrome, and pulmonary complications, influence of primary closure of pericardium after (Cunningham et al.), 119
hemostatic mechanism after. I. Studies on plasma coagulation factors and fibrinolysis in 512 patients after extracorporeal circulation (Bachmann et al.), 76
II. Frequency of abnormal platelet functions during and after extracorporeal circulation (McKenna et al.), 298
patients, incidence of pathogenic yeasts among—value of prophylaxis (Evans), 466
Outflow obstruction, ventricular, left, in Taussig-Bing malformation: anatomic and surgical implications (Goor and Ebert), 69
Oxygen consumption of normal and failing heart during left heart bypass (Wakabayashi et al.), 9
dissociation after transfusion of blood stored in ACD or CPD solution (Jesch et al.), 35
tension, arterial, and arterial blood pressure, continuous, simultaneous measurement of (Gold and Duarte), 656
uptake by isolated canine hind limb, influence of pulsatile perfusion on (Harken), 237
Oxygenation, membrane, extracorporeal, platelets, hemostasis, and thromboembolism during treatment of acute respiratory insufficiency with: experience with 28 clinical perfusions (Heiden et al.), 644

P

Pacemaker implantation, transthoracic and transvenous (Furman), 183 (Letter); Reply (Tyers), 183
-induced arrhythmias on coronary blood velocity in conscious man, effect of (Benchimol and Desser), 344
Pacer, cardiac, radioisotope-powered, new, in vivo study of (Smyth et al.), 2
Pacing, cardiac, permanent, at regional medical center (Wise and Sensenig), 677
Palliation of esophageal carcinoma, substernal gastric bypass of excluded thoracic esophagus for (Orringer and Sloan), 836
Parachute mitral valve complex: case report and review of literature (Schachner et al.), 451
Patency of synthetic vascular grafts in Leriche syndrome, effect of continued cigarette smoking on (Robicsek et al.), 107
Pathogenic yeasts among open-heart surgery patients, incidence of—value of prophylaxis (Evans), 466
Perfusion, artery, coronary, normothermic anoxic arrest, and profound topical cardiac hypothermia, comparison of: long-term morphologic and hemodynamic evaluation of left ventricle after cardiopulmonary bypass (Brody et al.), 1073
coronary (McGoon), 1025
(Spencer), 1029
lung, membrane, long-term, cannulation of proximal aorta during (McEnany et al.), 631
pulsatile, on oxygen uptake by isolated canine hind limb, influence of (Harken), 237
retrograde, of mammary artery, revascularization of right coronary artery by: experimental study (Florian et al.), 19
sinus, coronary, retrograde, drip, for myocardial protection during aortic cross-clamping (Poirier et al.), 966
Pericardial tamponade and myocardial failure, technique for distinguishing between (Frater), 541 (Letter); Reply (Meckstroth), 542
Pericarditis, constrictive, cystic thymoma simulating: role of echocardiography in differential diagnosis (Schloss et al.), 143
Pericardium with luxation of heart, traumatic rupture of: case report and review of literature (Mattila et al.), 495
after open-heart surgery on frequency of tamponade, postcardiotomy syndrome, and pulmonary complications, influence of primary closure of (Cunningham et al.), 119
Permanent cardiac pacing at regional medical center (Wise and Sensenig), 677
Phentolamine and levarterenol on canine myocardium, morphologic effects of simultaneous infusion of (Bove et al.), 701
Plasma coagulation factors and fibrinolysis in 512 patients after extracorporeal circulation, studies on, I. Hemostatic mechanism after open-heart surgery (Bachmann et al.), 76

Plasma—Cont'd
lipids during extracorporeal circulation (Ghirardi et al.), 661
Platelet(s) functions, abnormal, during and after extracorporeal circulation, frequency of, II. Hemostatic mechanism after open-heart surgery (McKenna et al.), 298
hemostasis, and thromboembolism during treatment of acute respiratory insufficiency with extracorporeal membrane oxygenation: experience with 28 clinical perfusions (Heiden et al.), 644
human, influence of cardiopulmonary bypass on size of (Laufer et al.), 727
support for cardiopulmonary bypass surgery (Harding et al.), 350
Polyp, endobronchial: case presentation (Sears et al.), 371
Postcardiotomy syndrome, tamponade, and pulmonary complications, influence of primary closure of pericardium after open-heart surgery on frequency of (Cunningham et al.), 119
Potassium-42 in dogs, intraoperative delineation of ischemic and scarred myocardium by localized detection of (Kirk et al.), 100
Power failure, left ventricular, intraoperative unidirectional intra-aortic balloon pumping in management of (Bregman et al.), 1010
Preclotting of knitted Dacron prosthesis: scanning electron microscope study (Guidoin et al.), 152
Preservation, myocardial (Engelman), 1028
(Kahn), 1028
during cardiopulmonary bypass: overview (Maloney and Nelson), 1040
ultrastructure (Stemmer et al.), 666
short-term, and resuscitation of canine cadaver heart, simple method of (Cooper), 896
Presidential Address: birth of society (Dugan), 759
time for insight and reflection (Bigelow), 193
Pressure, blood, arterial, and arterial oxygen tension, continuous, simultaneous measurement of (Gold and Duarte), 656
Primary infective endocarditis, left-sided, case for early surgical treatment of: collective review (Jung et al.), 509
lung cancers, multiple (Martini and Melamed), 606
resected lung cancer, long-term intermittent adjuvant chemotherapy for (Katsuki et al.), 590
solitary lymphoma of trachea (Pradhan et al.), 938
Primary—Cont'd
tracheal anastomosis after resection of cricoid cartilage with preservation of recurrent laryngeal nerves (Pearson et al.), 806
Prophylaxis, value of—incidence of pathogenic yeasts among open-heart surgery patients (Evans), 466
Prosthesis(es), Dacron, knitted, preclotting of: scanning electron microscope study (Guidoin et al.), 152
Starr-Edwards, isolated replacement of aortic valve with: 9 year review (Barnhorst et al.), 113
valve, heart, made of fascia lata, morphologic observations on (Silver et al.), 360
mitral, Beall, failure of: clinical and radiographic features (Jost et al.), 163
Prosthetic aortic valve, in vivo strain measurements of (Rainer et al.), 732
replacement of aortic arch (Griepp et al.), 1051
of esophagus (Salama), 739
valve(s) replacement in congenital aortic stenosis associated with hypoplasia of aortic valve ring, new method for (Konno et al.), 909
thrombogenicity of (Kaster), 539 (Letter)
Protection from lung damage by blood filtration during deep hypothermia in puppies (Hill et al.), 133
Psychosis, postoperative, after heart surgery (Sveinsson), 717
Pulmonary arteriovenous fistula, traumatic (Arom and Lyons), 918
artery anastomosis(es) (Glenn), cava–, during repair of congenital cardiac malformations, take-down of: report of 5 cases (Pacifico and Kirklin), 272
systemic–, in infancy (Neches et al.), 912
–left coronary artery fistula, main, congenital, in association with anomalous right coronary artery, surgical correction of (Achtel et al.), 46
aspergillosis, surgery in (Henderson et al.), 1088
circulation, reversal of (Dosios et al.), 229
complications, postcardiotomy syndrome, and tamponade, influence of primary closure of pericardium after open-heart surgery on frequency of (Cunningham et al.), 119
hyperinflation: form of barotrauma during mechanical ventilation (Baeza et al.), 790
sequestration (Khalil and Kilman), 928
stenosis, experimental, effects of systemic-pulmonary shunts on regional myocardial blood flow in (Cooper et al.), 166
sulcus, superior, carcinomas in (Paulson), 1095
Pulsatile perfusion on oxygen uptake by isolated canine hind limb, influence of (Harken), 237

Pumping, balloon, intra-aortic (Effler), 1024
unidirectional, intraoperative, in management of left ventricular power failure (Bregman et al.), 1010

Q

Quadruple valve commissurotomy (Borman et al.), 712

R

Radioisotope-powered cardiac pacer, new, in vivo study of (Smyth et al.), 2

Red cells, frozen, during and after cardiopulmonary bypass, effect on blood coagulation of exclusive use of transfusions of (Umlas and Sakhuja), 519

Reflection and insight, time for (Bigelow), 193 (Presidential Address)

Regurgitation, mitral, experimental: effects on left ventricular function before and after elimination of chronic regurgitation in dog (Rankin et al.), 478

Repair, intracardiac, of tetralogy of Fallot: five-year review of 403 patients (Chiariello et al.), 529
of tetralogy of Fallot, cardiac function early after (Pouleur et al.), 24
total, of transposition of great vessels, new approach to: technique for atrial autotransplantation (Taguchi et al.), 282

Replacement, emergency, successful, of ascending aorta and aortic and mitral valves in Marfan syndrome (Geha et al.), 223
isolated, of aortic valve with Starr-Edwards prosthesis: 9 year review (Barnhorst et al.), 113
prosthetic, of aortic arch (Griepp et al.), 1051
of esophagus (Salama), 739
valve, mitral, isolated, with Kay-Shiley disc valve: actuarial analysis of long-term results (Wellons et al.), 862
prosthetic, in congenital aortic stenosis associated with hypoplasia of aortic valve ring, new method for (Konno et al.), 909

Resected, primary lung cancer, long-term intermittent adjuvant chemotherapy for (Katsuki et al.), 590

Resection of acute posterior ventricular aneurysm with repair of ventricular septal defect after acute myocardial infarction (Crosby et al.), 57
of cricoid cartilage with preservation of recurrent laryngeal nerves, primary tracheal anastomosis after (Pearson et al.), 806

Resection—Cont'd
successful, and primary anastomosis, report of: metastatic carcinoma (endometrial adenoacanthoma) to trachea (Zerner), 139

Respiratory insufficiency, acute, with extracorporeal membrane oxygenation, platelets, hemostasis, and thromboembolism during treatment of: experience with 28 clinical perfusions (Heiden et al.), 644

Resuscitation and short-term preservation of canine cadaver heart, simple method of (Cooper), 896

Revascularization, myocardial, fate of internal mammary arterial implants and bypass conduits for: experimental angiographic, histologic, and ultrastructural observations (Mullerworth et al.), 89
of right coronary artery by retrograde perfusion of mammary artery: experimental study (Florian et al.), 19
by ventricular–internal mammary artery implants increases longevity, evidence that: twenty-four year, nine month follow-up (Vineberg), 381

Reversal of pulmonary circulation (Dosios et al.), 229

Ring, valve, aortic, new method for prosthetic valve replacement in congenital aortic stenosis associated with hypoplasia of (Konno et al.), 909

Roentgenographic finding, new, in acute traumatic rupture of aorta (Gray and Kirsh), 86

Rupture of aorta, traumatic, acute, new roentgenographic finding in (Gray and Kirsh), 86
traumatic, of pericardium with luxation of heart: case report and review of literature (Mattila et al.), 495

S

Samson Thoracic Surgical Society: Announcement of 1976 Annual Meeting, 191, 379, 569, 757, 943, 1107

Saphenous vein graft, bridge (Cheanvechai et al.), 63

Scarred and ischemic myocardium by localized detection of potassium-42 in dogs, intraoperative delineation of (Kirk et al.), 100

Scintigraphy, myocardial: post-Vineberg study (Begg et al.), 398

Sequestration, pulmonary (Khalil and Kilman), 928

Serum enzymes in diagnosis, value of: myocardial injury and bypass grafting (Codd et al.), 489

Shunt(s), Blalock-Taussig, in first six months of life (Laks et al.), 687

Shunt(s)—Cont'd
systemic-pulmonary, on regional myocardial blood flow in experimental pulmonary stenosis, effects of (Cooper et al.), 166
Sinus perfusion, coronary, retrograde, drip, for myocardial protection during aortic cross-clamping (Poirier et al.), 966
Smoking, cigarette, continued, on patency of synthetic vascular grafts in Leriche syndrome, effect of (Robicsek et al.), 107
Society, birth of (Dugan), 759 (Presidential Address)
Solitary lymphoma of trachea, primary (Pradhan et al.), 938
Spasm, esophageal, diffuse, pre- and postoperative manometric studies in (París et al.), 126
Stabilization, operative, of nonpenetrating chest injuries (Moore), 619
Starr-Edwards prosthesis, isolated replacement of aortic valve with: 9 year review (Barnhorst et al.), 113
Stenosis, aortic, congenital, associated with hypoplasia of aortic valve ring, new method for prosthetic valve replacement in (Konno et al.), 909
arterial, coronary, during cardiopulmonary bypass, significance of (Engelman et al.), 869
mitral, congenital (Khalil et al.), 40
pulmonary, experimental, effects of systemic-pulmonary shunts on regional myocardial blood flow in (Cooper et al.), 166
Strain measurements, in vivo, of prosthetic aortic valve (Rainer et al.), 732
Sub-Arctic, surgery in: thoracic surgeon's odyssey (Thomas), 203 (Honored Speaker's Address)
Subendocardial flow during cardiopulmonary bypass, dynamics of (Reuben et al.), 989
Sulcus, pulmonary, superior, carcinomas in (Paulson), 1095
Surgery, bypass, cardiopulmonary, platelet support for (Harding et al.), 350
heart, postoperative psychosis after (Sveinsson), 717
open-heart, dipyridamole and thrombocyte count in (Nuutinen and Mononen), 707
on frequency of tamponade, postcardiotomy syndrome, and pulmonary complications, influence of primary closure of pericardium after (Cunningham et al.), 119
hemostatic mechanism after. I. Studies on plasma coagulation factors and fibrinolysis in 512 patients after extracorporeal circulation (Bachmann et al.), 76
Surgery, open-heart, hemostatic—Cont'd
II. Frequency of abnormal platelet functions during and after extracorporeal circulation (McKenna et al.), 298
patients, open-heart, incidence of pathogenic yeasts among—value of prophylaxis (Evans), 466
in pulmonary aspergillosis (Henderson et al.), 1088
in sub-Arctic: thoracic surgeon's odyssey (Thomas), 203 (Honored Speaker's Address)
thoracic, comes to Alta California. Part I (Brewer), 571 (Inaugural Address)
Part II (Brewer), 763 (Inaugural Address)
Surgical correction of rare variant of cor triatriatum (Victor et al.), 354
implication of broncholithiasis (Faber et al.), 779
Survival and histopathological findings, refinement in application of total artificial heart, with improvement in (Honda et al.), 214
improved, after coronary artery surgery in patients with extensive coronary artery disease (Ullyot et al.), 405
long-term, in bronchogenic carcinoma (Ashor et al.), 581
Syndrome, Leriche, effect of continued cigarette smoking on patency of synthetic vascular grafts in (Robicsek et al.), 107
Marfan, successful emergency replacement of ascending aorta and aortic and mitral valves in (Geha et al.), 223
Systemic–pulmonary artery anastomoses in infancy (Neches et al.), 912

T

Tamponade, pericardial, and myocardial failure, technique for distinguishing between (Frater), 541 (Letter); Reply (Meckstroth), 542
postcardiotomy syndrome, and pulmonary complications, influence of primary closure of pericardium after open-heart surgery on frequency of (Cunningham et al.), 119
Taussig-Bing malformation, left ventricular outflow obstruction in: anatomic and surgical implications (Goor and Ebert), 69
Temporary left ventricular bypass, new method for: preclinical appraisal (Bernhard et al.), 880
Tension, oxygen, arterial, and arterial blood pressure, continuous, simultaneous measurement of (Gold and Duarte), 656

Tetralogy of Fallot associated with complete atrioventricular canal: clinical experience and operative methods (Fisher et al.), 265
cardiac function early after repair of (Pouleur et al.), 24
intracardiac repair of: five-year review of 403 patients (Chiariello et al.), 529

Thoracic esophagus, excluded, for palliation of esophageal carcinoma, substernal gastric bypass of (Orringer and Sloan), 836
surgery comes to Alta California. Part I (Brewer), 571 (Inaugural Address)
Part II (Brewer), 763 (Inaugural Address)

Thrombocyte count and dipyridamole in open-heart surgery (Nuutinen and Mononen), 707

Thromboembolism, hemostasis, and platelets during treatment of acute respiratory insufficiency with extracorporeal membrane oxygenation: experience with 28 clinical perfusions (Heiden et al.), 644

Thrombogenicity of prosthetic valves (Kaster), 539 (Letter)

Thrombus generation within artificial heart (Olsen et al.), 248

Thymectomy, current procedures in: distribution of thymic tissue at anterior mediastinum (Masaoka et al.), 747

Thymic tissue at anterior mediastinum, distribution of: current procedures in thymectomy (Masaoka et al.), 747

Thymoma, cystic, simulating constrictive pericarditis: role of echocardiography in differential diagnosis (Schloss et al.), 143

Tissue, thymic, at anterior mediastinum, distribution of: current procedures in thymectomy (Masaoka et al.), 747
valves, evaluation of (Frater), 540 (Letter); Reply (Ionescu), 541

Total artificial heart, refinement in application of, with improvement in survival and histopathological findings (Honda et al.), 214

Trachea, metastatic carcinoma (endometrial adenoacanthoma) to: report of successful resection and primary anastomosis (Zerner), 139
primary solitary lymphoma of (Pradhan et al.), 938

Tracheal anastomosis, primary, after resection of cricoid cartilage with preservation of recurrent laryngeal nerves (Pearson et al.), 806

Tracheobronchial tree, culture of (Pecora), 184 (Letter); Reply (Cattaneo), 184

Transfusion(s) of autologous whole blood to reduce banked-blood requirements in open-heart surgical patients, failure of (Pliam et al.), 338
of blood stored in ACD or CPD solution, oxygen dissociation after (Jesch et al.), 35
of frozen red cells during and after cardiopulmonary bypass, effect on blood coagulation of exclusive use of (Umlas and Sakhuja), 519

Transposition of great arteries, obstruction of superior vena cava after Mustard procedure for: conservative management of chylothorax (Cumming and Ferguson), 242
unusual complication after total correction of: case report (Wildevuur et al.), 471
vessels, new approach to total repair of: technique for atrial autotransplantation (Taguchi et al.), 282

Traumatic coronary artery–right heart fistula: report of case and review of literature (Reyes et al.), 52
fistula between left anterior descending coronary artery and right ventricle: case report with successful surgical repair (Sutherland et al.), 692
pulmonary arteriovenous fistula (Arom and Lyons), 918
rupture of aorta, acute, new roentgenographic finding in (Gray and Kirsh), 86
of pericardium with luxation of heart: case report and review of literature (Mattila et al.), 495

Treatment, surgical, early, of left-sided primary infective endocarditis, case for: collective review (Jung et al.), 509

Triatriatum, cor, surgical correction of rare variant of (Victor et al.), 354

Tricuspid challenge, end of: Carpentier's annulus and De Vega's annuloplasty (Grondin et al.), 852

Tumor-associated antigen measured by leucine incorporation, lymphocyte responses of lung cancer patients to (Roth et al.), 613

U

Ultrastructure and function, myocardial, during progressive early ischemia in intact heart (Lichtig and Brooks), 309
myocardial, preservation of (Stemmer et al.), 666

Uptake, oxygen, by isolated canine hind limb, influence of pulsatile perfusion on (Harken), 237

V

Valve(s) allotransplantation, aortic, and blood group compatibility in man (Balch and Karp), 256
aortic and mitral, and ascending aorta in Marfan syndrome, successful emergency replacement of (Geha et al.), 223
prosthetic, in vivo strain measurements of (Rainer et al.), 732
with Starr-Edwards prosthesis, isolated replacement of: 9 year review (Barnhorst et al.), 113
cardiac, dura mater, homologous: structural aspects of eight implanted valves (Nuno-Conceição et al.), 499
commissurotomy, quadruple (Borman et al.), 712
complex, mitral, parachute: case report and review of literature (Schachner et al.), 451
heart, use of Gore-Tex for (Gore), 540 (Letter)
prosthesis(es), heart, made of fascia lata, morphologic observations on (Silver et al.), 360
mitral, Beall, failure of: clinical and radiographic features (Jost et al.), 163
prosthetic, thrombogenicity of (Kaster), 539 (Letter)
replacement, mitral, isolated, with Kay-Shiley disc valve: actuarial analysis of long-term results (Wellons et al.), 862
prosthetic, in congenital aortic stenosis associated with hypoplasia of aortic valve ring, new method for (Konno et al.), 909
tissue, evaluation of (Frater), 540 (Letter); Reply (Ionescu), 541
Valvotomy, mitral, closed (Moran), 184 (Letter); Reply (Bhayana), 185
Vascular grafts, synthetic, in Leriche syndrome, effect of continued cigarette smoking on patency of (Robicsek et al.), 107
Vein(s), coronary, for diffuse coronary occlusion, selective arterialization of: experimental evaluation (Chiu and Mulder), 177
graft, saphenous, bridge (Cheanvechai et al.), 63
and mammary artery grafts, anatomic, physiological, and angiographic considerations of: selection of coronary bypass (Geha et al.), 414
Velocity, blood, coronary, in conscious man, effect of pacemaker-induced arrhythmias on (Benchimol and Desser), 344
Vena cava, superior, after Mustard procedure for transposition of great arteries, obstruction of: conservative management of chylothorax (Cumming and Ferguson), 242
Ventilation, mechanical, form of barotrauma during: pulmonary hyperinflation (Baeza et al.), 790
Ventricle, left, after cardiopulmonary bypass, long-term morphologic and hemodynamic evaluation of: comparison of normothermic anoxic arrest, coronary artery perfusion, and profound topical cardiac hypothermia (Brody et al.), 1073
ischemic contracture of: production and prevention (MacGregor et al.), 945
right, congenital diverticulum of (Copeland et al.), 536
on epicardium, construction of: possible correction for underdevelopment of right ventricle (Seki et al.), 330
and left anterior descending coronary artery, traumatic fistula between: case report with successful surgical repair (Sutherland et al.), 692
Ventricular aneurysm, posterior, acute, with repair of ventricular septal defect after acute myocardial infarction, resection of (Crosby et al.), 57
bypass, left, temporary, new method for: preclinical appraisal (Bernhard et al.), 880
compliance, effects of myocardial ischemia on: protective role of hydrocortisone (Toyama and Reis), 458
fibrillation (Baird), 1027
function, left, before and after elimination of chronic regurgitation in dog, effects on: experimental mitral regurgitation (Rankin et al.), 478
poor, long-term functional results of surgery for coronary artery disease in patients with (Fox et al.), 1064
–internal mammary artery implants increases longevity, evidence that revascularization by: twenty-four year, nine month follow-up (Vineberg), 381
outflow obstruction, left, in Taussig-Bing malformation: anatomic and surgical implications (Goor and Ebert), 69
power failure, left, intraoperative unidirectional intra-aortic balloon pumping in management of (Bregman et al.), 1010
septal defects, acquired: evolution of operation, surgical technique, and results (Hill et al.), 440
Vessels, great, transposition of, new approach to total repair of: technique for atrial autotransplantation (Taguchi et al.), 282

Vineberg, post-, study: myocardial scintigraphy (Begg et al.), 398

Y

Yeasts, pathogenic, among open-heart surgery patients, incidence of—value of prophylaxis (Evans), 466

Young man, multiple coronary artery aneurysms resulting in myocardial infarction in: treatment by double aorta-coronary saphenous vein bypass grafting (Kitamura et al.), 290
